Supervisors Appropriate $70,000 for Vermont Ave.

The Supervisors at their meeting Thursday resolved to commence action at once on the completion of Vermont avenue as far as Spencer street, Gardena.

Supervisor McClellan said there is a fund of about $70,000 available for Vermont avenue. Condemnation proceedings will be commenced at once on about ten pieces of property and damages wil be given to six or eight property holders whose lots will be sliced longitudinally.

The completion of the avenue south of Gardena was not considered of such immediate moment, though greatly needed, but the completion of the section between Gardena and Los Angeles is now assured.

WHITE LEGHORN VS. OSTRICH

Mr. A. C. Osmond of 15579 Normandie avenue has the honor of having a White Leghorn hen, almost one year old, that caps the cilmax and shames the ostrich. This hen is of the famous M. A. Schofield strain, or Gardena, also, and it with the almost punctilious regularity lays enormous eggs that, no doubt, places it ahead of any hen engaged in the industry. An egg brought into the Reporter office Thursday by Mr. Osmond measured in longitudinal circumference nine inches and the tape showed seven and one-half inches around the equator. The egg weighed three and three-quarter ounces. It will be a difficult matter for any White Leghorn hen to filch the laurels from the crown of the little White Leghorn of the Schofield strain.

FARM MANAGEMENT SCHOOLS TO BE HELD

During these times of depression on agricultural products farmers are taking greater interest in farm management and cost accounting. A series of farm management schools have therefore been arranged by the Agricultural Extension Service, which will be conducted by Mr. R.. V. Wright, Farm Management Specialist of the University of California. Those meetings will be an aid in analyzing the business and keeping records and in determining the casts of production which are all of special importance. Special emphasis will be given to cost accounting on the citrus ,walnut and poultry industries as well as on general farming. The various co-operative associations are assisting in interesting their members in this type of work as it is of great value to these particular industries to have some accurate cost data. The importance of high producing dairy cows and hens, of heavy yielding fruit trees, and of large crops per acre need little emphasis. It is of great importance, however, to determine which of the branches of farm business are on a paying basis and on which one can expect to make the greatest profits. The keeping of accurate farm business records is of great advantage in making out income tax returns. A Farm Account Book has been prepared by Mr. Wright and which is published by the University and will be sold at cost to all farmers desiring to employ such a system. These books can be secured at Farm Bureau headquarters, 361 Court House, Los Angeles, at 50c each, and they will also be on hand at the various meetings.

The Poultry Producers of Southern California, the California Walnut rGowers Association and the California Fruit Growers Exchange have all prepared supplements to this Farm Account book to take care of these various industries in particular and will be distributed free to all who agree to keep them. This series of meetings will be of great value to all those who attend.

Watts Wants Name Changed to Midland

An effort is being made by petition to the proper authorities to change the name of Watts to that of Midland, supposedly to gain a name more distinctive, as to locality, and perhaps for other reasons. With all due respect to Mr. Watts if there be such a gentleman, for whom the town was named, it might be well to change the name, if those most interested have their hearts set on this purpose.

And, since the people of one town seemingly demand a change in name, it might be well to mention that this can be done without disastrous results as witness South Riverside, which was neither South nor Riverside, and which is now Corona, though an attempt was made to name it after Campello, a town in Massachusetts. And there was East Riverside, which is now Highgrove and never was East of Riverside. But such is the dearth of imaginative faculties that no other name seemed possible for many years. And there is Devil canyon, a great picnic resort near San Bernardino. It would seem that the people of that locality should demand a change in the name to something less foreboding and harrowing in anticipation. And is Nigger Slough, arms of which, though seldom carrying water, etxend from a point north of Gardena, and its unwholesome name of Nigger Slough wriggles with its contour to Hermosillo, and close enough to Torrance to smudge the beauty of the landscape with its name only and down to the sea.

If cities find no difficulty in changing their names which are officially recognized in the postal regulations, then the Fourth District Chamber of Commerce should urge the change of the name of Nigger Slough to some more musical cognomen. If there were a Fourth District composed exclusively of women then we should have many names erased from the map, especially those whose existence is not fortified in postal regulations.

SPRING SPRAYING WILL BE DEMONSTRATED

Arrangements have been made by the Agricultural Extension Service of Los Angeles county to conduct a series of spring spraying demonstrations for deciduous fruits. Several plots have been laid out by the Extension Service in th epast two years whic hhave demonstrated that two sprayings will completely control all pests and disease, one being conducted in the late fall and the other in the spring at the time the buds are beginning to swell. This spring spraying is very important and by this practice growers are able to control and eliminate disease and insect pests which might otherwise destroy a large portion of their crop. Various spray materials may be used and all these will be discussed at the time of the demonstrations. These demonstrations have been conducted in the past with a great deal of success and much interest has been shown by growers.

OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacob's Oil

Stop suffering! Rheumatism.

It's painful misery no more in one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the painful spot, and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacob's Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes the pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Limber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

BREAK CHEST COLDS WITH RED PEPPER

Ease your tight, aching chest, Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles".
