Trailer Safety Hints Suggested

If you are planning a motor trip and will have a trailer attached to your car, here are a few tips from Police Chief John Stroh to keep you out of trouble.

Be sure your brakes comply with the law. Have them checked and adjusted by an official brake station.

If you use a house trailer weighing 1500 pounds or more it must be equipped with brakes.

Any trailer you use must be equipped with proper clearance lights, tail lights and reflectors, and signaling system. The driver must be able to have a clear view to the rear.

Keep within speed limits. The maximum is 45 miles per hour for trailers drawn by passenger vehicles.

Your trailer must have a safety chain in addition to regular trailer hitch.

BIG SPRINTER

HALF AND HALF
