Polaroid J.66: More Camera For Less Money

The Polaroid J.66 costs less than the first Land Camera model introduced more than 12 years ago!
It takes the same large pictures—but with what a difference! It's fully automatic. There are no settings you have to make. An electric eye chooses the exposure. You don't have to focus. You don't need an expensive light meter. The flash gun is built in too. And your picture is ready in just 10 seconds.

There are 12 years of improvements, refinements and brand new ideas in this camera. And yet it actually costs less than the first Land Camera on the market.

If you've always wanted a Polaroid Land Camera—and who hasn't?—this is your chance. Come in for a Free Demonstration.
