Her secret IS SAFE with us!

Contact lenses have come a long way since they were first introduced to the human eye.

Now—so comfortable, so undetectable—contact lenses are for just about anybody: the self-conscious teen-ager, hating to admit she needs glasses . . . the society miss who feels that conventional glasses subtract from her youthful charm . . . the man or woman afflicted with forgetfulness who too often leave their regular glasses at home. *Whatever your reason for being interested, come in and see what Science has done about contact lenses to make them wonderful to wear.*
