Citroen Helps Pioneer Cars

For 35 years, Citroen pioneered the front wheel drive. Now it is standard on some models of Oldsmobile and Cadillac.

Air oil suspension is an exclusive development of Citroen that makes it different than any car on the road. It is considered the world's most comfortable riding motor car.

VEL'S FORD DRIVER . . . George Snider is the pilot of one of two cars entered in the Indianapolis 500 Mile Race by Vel Miletich and Parnelli Jones.
