

**Building your dream home soon?**

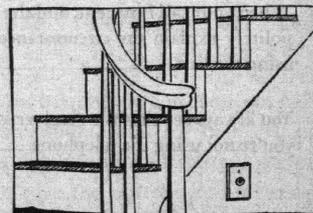

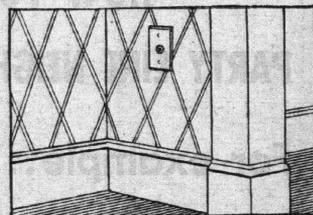

## **DON'T FORGET TO PLAN AHEAD FOR CONCEALED TELEPHONE WIRING**

**Whether you'll want** only one or a number of telephones, the time to plan for built-in concealed wire facilities is when your home is still in the blueprint stage.

For then you can be certain you won't later have to tear up part of your flooring or bring the wire in along the baseboard.

So decide in advance on convenient locations, and specify that conduit be installed during construction. This provides a metal tube through which wires may be drawn when your telephone is installed.

Our Architects' and Builders' Service will help you in every way possible at no charge.
