In seven large cities on the Pacific Coast, telephone customers ask "Information" for numbers approximately 242,000 times every day. And two out of five of those requests are for numbers that are right at hand in the telephone directory. To handle these thousands of calls ties up large amounts of telephone equipment. You can help us to make this equipment go further. You can help us to serve you by calling "Information" only when you do not find the number listed in the telephone directory.

"RECEIVER off book"

That is the reason many important telephone calls are not received.

Always replace the receiver carefully and know that your friends, relatives and office will be able to reach you.

Southern California
