APPLIED ANATOMY

Where can a man buy a cap for his knee?
Or a key for a lock of his hair?
Or can his eyes be in academy.
Because of the pupils there?
In the crown of his head what gems are found?
Who travels the bridge of his nose?
Does the calf of his leg become hungry at times
And devour the corn on his toes?
Can the crook of his elbow be sent to jail?
Where's the shade from the palm of his hand?
How does he sharpen his shoulder blades?
I'll be hanged if I understand.

WANT BETTER CLIMATE

For the benefit of distant readers it must be repeated that a part of Gardena is within the incorporated limits of Los Angeles, and,

Whereas, The street lights on the north side of 165th street frequently, if not always, are permitted to burn, or shed their effulgent rays upon the wayfarer, man, horse, or automobile, twenty-four hours per diem, and

Therefore, Be it resolved that the south side of 165th street, Gardena, California, be also equipped with a street lighting system in order that the same balmy climate may obtain upon both sides of the street, and,

Resolved, That this resolution be spread out flat upon the minutes of this organization and a copy be sent, suitably engrossed upon asbestos, or other fireproof material, to the future address of the Board of Public Works.

TROUNCED

The Moneta Standard Oil basket ball team was trounced by the Pomona Standard Oil team on Tuesday night in Redondo.

"All who want to go to heaven, please rise," said the Sunday School superintendent.

All-rose except Johnny.

"Don't you want to go, Johnny?" he asked in surprise.

"Not yet," came the answer.

The plea that European countries cannot pay their debts without Free-Trade, is no excuse for our impoverishing our home industries and placing ourselves in a similar position. We have debts of justice and honor to our American workmen, which we must pay first.
