

There is going to be an old man dependent on you some day. He is not your father, nor your wife's father, nor an uncle, nor an elder brother, but **you yourself**. What are you laying by for his happiness, comfort and sustenance during the sunset days of life? The time to make provision for him is **now** while you are young and strong and prosperous. Later on it may be too late.

LADIES AND GENTLEMEN!

Two or three years ago anyone could work in a Shoe Shop, but today the people want the best kind of work—they know.

So I looked all over Los Angeles and nearby towns and picked the best man that could be found and as luck would have it I secured him as my partner. He makes out of old shoes entirely new ones. His special work is ladies' fancy shoes. He is the finest shoe man in this part of the country because he has made them all his life.

All we ask is give us a trial, for which we thank you in advance.

Yours truly

Tige and Tige Not Mad Dogs Says Paxman

Ever since a vicious mad dog was shot in the streets of Torrance last week it has kept the populace of Torrance guessing as to whether or not every other dog in Torrance had been bitten by this Bull Terrier.

C. A. Paxman, of "Paxman's" hastens to inform us that he has two dogs Tige and Tige, whose pictures have been running in the Herald, that were not bitten by the mad dog. Besides it would not make any difference if they had been, because he has had these two famous "bulls" given the serum treatment by a noted veterinary officer, and there is absolutely no danger of his customers getting rabies from them. These two dogs may be viewed at the hardware store of Mr. Paxman in either Torrance or Lomita. They have a wonderful story.

Mr. and Mrs. Bosanko, of Arlington ave, have moved to Santa Ana.

Mr. and Mrs. Stone Ekland were over Sunday visitors in Los Angeles.

Mrs. Isabelle Henderson arrived from the East where she visited with relatives for the past ten weeks.

Mr. and Mrs. Willis Brooks are moving into their new home on Llewellyn street.

R. G. Johnson, of Van Nuys, has accepted a position with the H. E. Reeve hardware company.

Mr. and Mrs. P. M. Anderson have returned home from their northern trip where they had a most enjoyable vacation.

John Connel was a Torrance visitor last Friday. He has just recently returned from an extended trip east. Mr. Connel was formerly a resident of Torrance and was in the office of the City water company.

WHY NOT?

Have you visited the new barber shop in the Lomita Club? There are two barbers and pre-war prices are charged. See us.

"VAMPS" WHO MADE HISTORY

By JAMES C. YOUNG.

(© by McClure Newspaper Syndicate.)

THE GIRL WHO MADE A KING HER JESTER.

IF IT had not been for a little negro boy with a crooked back one of the most beautiful women of the French revolutionary period might have escaped with her life. But it was the delight of Mme. du Barry to tense this boy Louis Zamora until he flew into futile rages. Her death was his revenge.

She began life as a servant's daughter, but soon became a beauty. The son of the Duc de Brissac saw her when she was under twenty, employed in a milliner's shop. From his hands she passed on to the Vicomte Du Barry, a down-at-the-heel nobleman who kept a famous gambling establishment. She was the attraction of the gaming tables for several years. Then the vicomte, who saw her loveliness increase every day, conceived the idea of introducing her to Louis XV.

Lebel, valet to the king, was the judge of beauty for his imperial master. He already had introduced Pompadour, then dead. And it was to Lebel that the vicomte applied. The valet gave a dinner to which the gambler's apprentice was invited. But she failed to find the king there. In her disappointment she drank deeply, and gave way to a string of the bad talk for which she afterward was famous. The king, hidden behind a curtain, listened and was delighted. He came forth and Du Barry's fortune was in the making.

Every woman Louis had known went to the last lengths in an effort to entertain him. But Du Barry insisted that he entertain her.

Then Louis died. Du Barry retreated to a place near Paris and not long afterward again fell in with De Brissac. Next came the revolution, fearful, bloody days. Du Barry hid, but Zamora kept the revolutionary authorities informed of all that she did. One day De Brissac was late in returning from a trip to Paris in search of news. Du Barry, fearful, told Zamora to go down the road and see if her lover was on the way. "There is no need," he said. "I can show you his head," and he brought forth that gruesome object.

Du Barry was tried and executed on the same day, December 7, 1793. At the last she broke down and pleaded for her life. Zamora stood by the block and screeched his delight.

AN ANNOUNCEMENT

In a way we feel that an apology is due many of our customers, because seemingly we have neglected them. Being so busy of late we did not realize how neglectful it may have appeared to those who do not know. Some times it has been necessary for both of us to be away on jobs and we could not give our personal attention to inquiries that came in. Henceforth a special effort will be made to personally attend to all orders or inquiries, and we believe doing this will double our fast growing business in a very short time. We are here to stay and know that by giving service that serves together with a full line of electrical appliances our store will become even more popular than in the past. Let us solve your electrical problems.

Epidemic of Rabies in Torrance Makes Necessary The Muzzling of All Dogs Not Penned Up Or Tied On Leash

A mad dog which appeared on the streets of Torrance was killed yesterday by the Torrance Health Officer. Examination of the dog's brain proved it to be suffering from rabies. Inquiry immediately made showed that the dog had bitten little seven-year-old Florence Gramling, and had also bitten at least two dogs and two cats. Medical treatment had been started on the child in order to do all possible to prevent the disease from proving fatal. The dogs and the cats which are known to have been bitten, and any other dogs or cats which may have been bitten by the mad dog, and no knowledge thereof gained by the owners or others, will without doubt contract the disease and die. It is therefore absolutely necessary that all dogs in the City of Torrance be kept penned up or tied on leash or muzzled until all danger of their contracting the disease shall have passed. No one knows how many dogs were bitten by the mad dog, or how soon any one of those bitten may spread the disease further by biting some other dog. Your own dog may be the next to show symptoms of the disease, and it may spread the disease by biting some person or other animal before the symptoms appear.

It is not necessary that all dogs be muzzled, provided they be kept either tied up or penned up so that they cannot stray into company with other dogs or stray where human beings may come in contact with them.

In compliance with Ordinance number 12 and Ordinance number 30 of the City of Torrance, the Board of Trustees of the City of Torrance, have, in special meeting, passed a Resolution ordering as follows:

That from July 27, 1922, "until further order of this Board of Trustees it shall be unlawful for any person to harbor or keep any dog in the City of Torrance, or to bring within the City of Torrance, any dog unless such dog shall be kept tied on the owners property or kept in an enclosure from which it cannot escape or shall be kept muzzled with such a muzzle as will absolutely prevent such dog from biting any person or other animal."

Ordinance Number 30 of the City of Torrance provides as follows:

"and during such time such order shall remain in effect the City Marshall or any deputy shall have the authority to kill any dog found in the City of Torrance, whether on the property of the owner of such dog or elsewhere, and whether such dog shall wear a license tag or not, unless such dog shall be kept tied or in an enclosure or kept muzzled as herein provided."

The above section is absolutely necessary to protect the very lives of our children and only by enforcing a strict quarantine on all dogs as outlined above can the spread of the disease be checked.

The Health Officer suggests that mothers see to it that their children are not allowed to play with cats or dogs until the present epidemic has passed as your own dog or cat may have the disease and only a small scratch of a tooth is sufficient to communicate the disease. It is also suggested that all cats be kept penned up as the law offers practically no protection to stray cats, and during this epidemic it is not to be supposed that your neighbor will take chances on having your cat straying around their house and in their yard where their children are playing. But not only because you may value your cat should you keep it penned up but because of the lives of the children of Torrance.

Remember that your license tax paid for the privilege of keeping a dog in the City of Torrance does not include the privilege of letting your dog run loose without a muzzle, at a time when loose dogs have been ordered muzzled. If you let your dog run loose, muzzle him.

Health Officer.
