## 24-Year Tubes

### Built by Miller only

It has taken 24 years to develop the skill which builds Miller Inner Tubes.

For 24 years Miller has built super-grade rubber goods. Miller leads the world, for instance, in surgeons' rubber gloves.

Their fine rubber goods are known everywhere as the "Surgeon Grade."

That's the sort of skill—the very rare skill—needed in building tubes.

Miller Tubes are built of "Surgeon Grade" rubber sheets. They are built layer on layer—sheet on sheet—up to the proper ply.

Then each tube is tested for hours under air pressure to prove it air-tight.

Don't buy tubes by guess. There are tubes not half so good as Millers.

Try a Miller—red or gray—and watch it. Then let results decide your future tubes. No extra price.

### Miller Tread Patented

Center tread smooth with suction cups, for firm grasp on wet asphalt. Guard-to-the-Road side treads mesh like cogs in dirt.
