CHOCAGO, Nov. 25.—Co-operative purchases of supplies by farmers running cooperative grain elevators is now under way in a number of middle western states, and the movement is rapidly developing, according to headquarters of the Farmers' National Grain Dealers' Association here. Ohio farmers, who have organized a \$100,000 purchasing company are reported to have contracted for the output of a coal mine and a feed mill and to be buying other materials, such as fencing and sugar, by the carload. In Iowa formation by farmers of a \$1,000,000 corporation having purchase of farm supplies as one of its chief functions is reported. The general plan is stated to be to pool purchases and sell by mail order.
