The directors of the Torrance Lime and Fertilizer Company met in their Torrance office Saturday and the following officers were elected for the coming year:

The directors present were: G. W. Towne, Frank Sammons, John Walker, C. C. Mishler and Frank Deininger.

Business affairs of the company and its future development were discussed and it was the unanimous desire of the directors to develop the company's property as rapidly as possible and to add to the equipment of the plant at once to care for the increased demand for their fertilizer product.

It was also decided to change the name from that of "The Torrance Lime and Fertilizer Company" to "Decomposed Marine Shell and Bone Company," "D. M. S. & B." to be the trade mark and displayed wherever possible.

Mr. A. Noss, an experienced accountant, has been engaged by the Lime Company, with offices in Torrance, and will be on the job at all times to care for the detail work which is increasing daily with the demand for fertilizer lime. "Throw Out the Lime Line," is being advocated by S. Maus Purple, manager for the company, and will be highly displayed at their booth in the Anaheim Orange Show this week, where Mr. Purple has arranged a booth showing their product.
