

### The Way to Happiness

Happiness is not a place. It is not a thing. It is a relation between things. We discover it most easily at the end of the path of daily unselfishness when we pass under the shining arch, "Help Another Every Day."

#### Do a Good Turn Daily

Help the blind or feeble man to cross the street. Carry the packages home for that little old woman. Give a pleasant smile to the clerk who waits upon you. You will feel better and they will. Greet the world with a smile and it will smile back. Christianity is founded on love to others. Attend the church of your choice Sunday and discover by daily effort what the true measure of Christianity involves.

#### LOMITA CHURCH NOTES

In the morning the pastor spoke on Christian Americanization, from the text: "None of us liveth to himself."

Our country has grown remarkably in extent of territory, in population and in wealth. This growth has brought us prosperity, but it has also brought us economic, social and moral problems, for whose solution great wisdom, patience and perseverance are needed.

Our immigrant population has come to us with old-world ideas concerning government, society and the church, which do not obtain here. They must learn that liberty is not license to do as one pleases. They must be taught that separation of church and state did not mean at the beginning and does not mean now indifference, still less hostility, to the church.

All our people, native born as well as foreign born, need to learn and practice respect for and obedience to the law of the land. This

applies to the 18th Amendment, as well as all laws adopted by the constituted authority of the people. We need a new attitude toward one another. Mob spirit rules too frequently. Race prejudice and class hatred ought not to exist in the United States. We need a new and more friendly attitude toward the church and religion. The church is the best friend of the family, of parents and of the children.

The evening subject was: Was Jesus a Social Reformer? It was shown that while Jesus did not speak against human slavery, yet the teaching of the Christian religion so softened the hearts of Christian masters toward their slaves that one of the events in the observance of Christmas and Easter was the emancipation of slaves. Many reforms in society have had their origin in the practical application of the Christian religion. So while Christ did not attack the government of Rome, His religion has wrought for religious and civil liberty through the centuries.
