**KEYSTONE.**  
 Our schools are full to overflowing. It's time the Board of education was doing something toward a new school building for Keystone. We help vote the bonds, what we want now is action. Representatives of the power companies were in Keystone last week, making a survey of probable cost of furnishing light and power to the residents of this district. A reasonable amount of speed in placing this much needed improvement, will look good to us, advocates of watchful waiting died a natural death some two years ago. Let's have light.

A letter from O. V. Kinder and family, now visiting in Missouri, indicates a longing for Keystone, and our wonderful climate. It seems that the word climate and its meaning does not appear in Missouri dictionaries. The native calls it weather and describes it as hot, cold, wet, or dry. A talk with members of the Long Beach Chamber of Commerce this week indicates that they are more and more convinced that the opening up of Carson avenue is of vital importance to Long Beach. It being a direct road to Torrance, Redondo and Santa Monica. This boulevard would bisect the heart of the greatest development now under way in Southern California. The wise ones of the various chambers, together with the Planning Commissions and the supervisors, see it as the Southland's greatest need.

The Industrial Relations Club of the Union Tool Company, held a banquet at Long Beach, Wednesday evening, in honor of P. C. Moore, Secretary of the Union Tool Company, Carnegie.
