A. H. BARTLETT, Notary Public

NOVEL MUSEUM PLANNED FOR CATALINA IS.

One with Reproduction of Indian Skull On Top Is Planned

AVALON, Catalina Island, Sept. 21—Two hundred feet above the Pacific Ocean and overlooking Avalon, on Catalina Island, Ralph Glidden—of the staff of the Museum of the American Indian, George G. Heye Foundation, in New York—will erect a unique museum of his own that should prove one of the wonders of the modern world.

Instead of a tower to crown it, the Glidden Museum will be capped by a gigantic skull, 16 feet wide, 11 feet high and 24 feet through. For his model, Mr. Glidden is taking the skull of an Indian chief which he unearthed recently on San Nicolas Island, just out beyond Catalina.

The nose bridge will also be fitted up with additional illumination, as well as the lower jaw. The effect of the latter will be designed so as to show up the teeth, which were one of the notable features of the aborigines.

The novelty of Mr. Glidden's museum will not stop with the outside. If anything, the interior is to be even more bizarre. He intends taking for his pattern a mortuary chapel recently unearthed on the Island of Malta, in the Mediterranean, halfway between Italy and Tripoli, where St. Paul was shipwrecked in 60 A. D.

While Mr. Glidden will not attempt to duplicate this chapel, he intends to arrange many of the human bones that he has collected in various geometric designs. When

Wood Alcohol Kills 130 in Six Months

NEW YORK, Sept. 28—Wood alcohol peddled as whisky caused 130 deaths and 22 cases of blindness in 21 states during the first six months of 1922, the national committee for the prevention of blindness reported.

New Yorkers to Picnic Oct. 7th

The New York State Society of Southern California calls on all who have ever lived in that State to meet for the great picnic and reunion, all day, Saturday, October 7, 1922, in Sycamore Grove Park, Los Angeles.

Come as early as you can. Bring your baskets well filled and share with friends. Coffee will be served free to all who buy the souvenir badges. Tables can be reserved for college, county, or town reunions.

All who learn of this picnic is asked to pass the word along.

completed the museum on Santa Catalina will be unlike anything else anywhere in this country. It will be open to the general public, and the builder plans to give talks on the relics so that the people who visit it will learn something besides having their curiosity catered to.

The Museum of the American Indian, George G. Heye Foundation, was opened in 1916 in New York, at the corner of One Hundred and Fifty-fifth street and Broadway, adjoining the Hispanic Society of America, the American Geographic Society and the American Numismatic Society.

Mr. Heye, director, commissioned Mr. Glidden to explore the Channel Islands and collect relics of vanished Indians. Although the islands have already been dug over repeatedly by successive expeditions for archeological researches from this country and abroad, the results attained by Mr. Glidden have been little short of remarkable, in the judgment of scientific men.

Pointed Paragraphs

It sometimes arouses acrimony when a man is required to pay allmomy.

The person with social obligations need not worry, for it is usually easy to pay a compliment.

One of the pre-requisites to the acceptance of some jobs is the perquisites.

If a man is the joke of the community his wife is the last person to feel like laughing over it.

Many a man does not discover that his brakes are defective until he hits the down grade.

Laxness in parental discipline has the effect of making policemen earn their money.

Sometimes a man scrapes the paint off his car before he is able to scrape up the money to lift the mortgage.

There are many kinds of evil but only one kind of good that is worth carrying home.

Some men are so lazy that they will not even try to deceive by making a show of being busy.

Intemperate talk has probably caused more trouble in the world than intemperate drinking.

Part of the wisdom of living is to be able to select the things which may be taken for granted.

The joy killer is the person who introduces the static into ecstacy.

If a man can get a certificate of character from his wife he should be able to get credit at the store.

Mine Inquiry Board Named

SACRAMENTO, Sept. 28—Appointment of a special committee of three to conduct a thorough and an immediate investigation into the recent Argonaut mine disaster at Jackson, Amador County, in which forty-seven lives were lost, has been announced by Gov. Stephens.

Members of the committee are: President of the State Industrial Welfare Commission Dohrmann; W. J. Torring, president of American Mining Congress, mine operator, San Francisco, and John C. Williams, practical mining man, former vice-president of Miners' Union at Grass Valley.

CALF WITH HEART IN MOUTH HEALTHY

POPLAR BLUFF, Mo., Sept. 28—An 18-months-old calf, belonging to Lloyd Inlow, near Greenfield, has its heart in its mouth. The beat of the heart can be plainly seen when the lump in its throat expands and contracts. The animal appears to be healthy, and despite this deformity the calf has no difficulty except in getting food down its throat. The calf has to eat soft foods.

NO. OF BANK—733.
