Stops Ship on Way to Sea and Is  
Complimented by Its Commander

Miss Ruth Williamson Being Complimented by Commander of S. S. America

An exemplification of American ingenuity and desire to give service was the recent catching of a steamer by Miss Ruth Williamson. Miss Williamson was desirous of getting to London because of the illness of her mother, and had booked passage on the S. S. America, of the United States Lines. When Miss Williamson arrived at the pier with her baggage, she found to her dismay, that the vessel was well on its way to the open sea.

Realizing the strained predicament of the young woman, officials of the United States Lines called into service a speedy tugboat. The young woman was quickly escorted aboard the tug, and the rush after the liner began. The shrill whistling of the tugboat attracted the attention of the officers aboard the fast-traveling America, and the word was taken to Captain William Rind, commander, on the bridge of the ship, who immediately ordered the engine room to slacken speed, and in a few minutes the tugboat had arrived alongside the great ocean liner.

A rope ladder was lowered from

one of the lower decks of the America, and the plucky Miss Williamson, without further aid, proceeded to clamber upward to the deck, where she was greeted by the purser. Her baggage was raised up on the end of a rope. During the operation, a large crowd of passengers on the America climbed the rails, and cheered the brave girl's act. Captain Rind was so impressed with the young lady's courage that he sent for her from the bridge, and personally paid his compliments.

Big steamships depart on schedule time, and with all the promptness of a railroad train. It is disconcerting to the officials when travelers arrive late, but through various circumstances, this sometimes happens. The passenger's only hope then is to be taken aboard a tug in pursuit of the steamer. The majority of women hesitate about undertaking such a venture, but Miss Williamson gave ample testimony that she, as a member of the so-called weaker sex, was capable of the bravery of the stronger.

During Miss Williamson's boarding of the vessel, and after she was received by Captain Rind on the bridge of the steamer, scores of amateur photographers took snapshots of the young lady. Among the photographs sent back to shore aboard the tug was one showing the young lady being congratulated by the commander of the big liner.

Los Angeles Third  
In 1922 Building

With an assurance of approximately \$125,000,000 worth of buildings completed or under way by the close of the year, Los Angeles will rank third among all cities of the United States in new construction undertaken during 1922.

Led only by New York and Chicago, the former with eight times and the latter with four times this city's population, Los Angeles will hang up a 1922 building record five times as great as that of St. Louis, nearly three times that of Boston, three times that of Baltimore, nearly four times that of Pittsburgh, and nearly five times that of Cincinnati.

It is difficult for some folks to think that a physician can be kind-hearted, when he declines to relieve their sufferings by giving them a liquor prescription.

Less Meat If  
Kidneys Bother

Take a glass of Sals if your Back hurts or Bladder troubles you.

No man or woman who eats too much meat can make a mistake by flushing the kidneys occasionally, says a well-known authority. Big meat eating may develop uric acid, which excites the kidneys; they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood; then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders, often come from sluggish kidneys. The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Sals from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys; also to neutralize the acids in urine so it no longer causes irritation, thus often ending bladder weakness.

Jad Sals is inexpensive and can not injure; makes a delightful effervescent lithia water drink, which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications.

Govt. Timber Cruisers  
Return to Civilization

Bronzed by sun and wind, blessed with enormous appetites, and presenting the very picture of health, thirteen Forest Service timber cruisers who have been working in the woods since last April returned to civilization last Thursday.

Under the direction of Forest Examiner O. M. Evans of the San Francisco forestry headquarters the party cruised and mapped 93,400 acres in the California, Plumas and Stanislaus national forests, containing over a billion board feet of lumber. The purpose of the work was to obtain estimates and maps of logging chances on which future sales of government timber can be made. Cruising was done according to the latest improved Forest Service methods of timber survey, in which the diameter and height of 10 per cent of the standing trees are measured on regularly laid-out strips running through the forest. Map data were also secured with Amey, hand levels and chained distances.

TODAY'S REFLECTIONS

The public is being warned against beach perils. Look out for the flappers who are displaying their bathing suits on the sands.

If some people watched the stock market figures a little less, and their cash account a little more they would come out better.

Some people are getting credit for prosperity as the result of riding around in automobiles being paid for on the installment plan.

With the women folks all wearing striped skirts, it seems too bad that we can't get some prison stripes to put on bandits and profiteers.

An inquirer asks what "recognition de jure" is. Well, people who are frequently brought up in court usually recognize de jure.

The people are urged to see the light, and the speeding motorists get quite a flash of it when their heads butt against a telephone pole.

After fortifying themselves against hot weather with hammocks, cooling drinks, electric fans, etc., about all some people need is an automatic feeding machine so they won't have to lift their grub up to their mouths.

We hold up  
the QUALITY  
and hold down  
the PRICES.

WE WANT YOUR GROCERY BUSINESS—ALL OF IT. GIVE US SOME OF IT FOR ONE MONTH AND AFTER THAT YOU WILL GIVE US ALL OF IT.

WHY?

YOU WILL FIND OUR FOODS TO BE THE VERY PUREST AND BEST AND THAT THEY COST NO MORE THAN OTHERS CHARGE FOR INFERIOR STUFF.

NEW SHOES FOR THE BOY

Well, they are not new from the shoe store exactly, but practically new just the same. They were repaired from the boy's well worn old pair and they will wear like new ones. And they cost about one-third only.
