WIFE SAVERS

FAMILY MARKETING

Buy all loose vegetables, fruits and fresh meats only after personal inspection, and be thoroughly familiar with the nature and quality of what you buy. It is not possible to be a wise buyer of things which you are not familiar with if you buy as much as possible by personal inspection, and in frequenting the markets carefully observe the appearance of goods, you will soon learn just what good meat, fish, fruit and vegetables look like if they are really good. You will learn that the very white asparagus that comes first in the spring is very tough; that a young chicken has a tender breast; that sprouting vegetables of any kind have lost their flavor, and that bulging cans usually mean spoiled contents.

Boiled Rice with Poached Egg

One cup rice, two cups boiling water, two teaspoons salt, one tablespoon butter, four eggs. Wash rice through many waters. Add slowly to rapidly boiling salted water. Boil until tender. Drain through a colander and pour through rice two quarts boiling water. Melt butter in a tightly covered kettle, add rice and shake well. Cover and let stand in a warm oven or beside the fire until the kernels separate. Spread on a hot platter, make four depressions and cook each up a poached egg. Serve with cheese sauce.

Cheese Sauce

Two tablespoons butter, one and one-half tablespoons flour, pinch mustard, one-half teaspoon salt, one-quarter teaspoon paprika, one cup milk, one-half cup finely chopped cheese. Melt butter and stir in flour well mixed with mustard, salt and paprika. When smooth, slowly add milk, stirring constantly. When thick and smooth add cheese and cook over hot water until cheese is melted. Serve in sauce boat.

Poached Eggs

Melt enough butter in a frying pan to make the bottom very shiny. Fill pan two-thirds full of boiling water. Add three whole eggs, one cracked spoon paprika, one cup milk, one-half cup finely chopped cheese. Reduce the heat to keep the water at the boiling point but not bubbling when the eggs are dropped in. Break each egg into a saucer and slide carefully into the boiling water. Cover and cook until the tops are white. It will take about eight minutes. Remove from the water with a buttered perforated skimmer. Perfectly fresh eggs must be used for poaching.

PICKLING HINTS

Home-made pickles and relishes are always a treat if they are well made and properly stored for winter use. Wide-mouthed bottles with tight corks are excellent to use for pickles, and small preserve jars for the pickles that cannot be stored in crocks. All bottled stuff must be sealed.

40 Miscellaneous

CALL MRS. LYNNE, Lomita 102, before 8 a. m. and after 5:30 p. m. and give her your news items or advertisements. Anywhere at any time. No items or advertisements too small and none too large.

Pickling is inexpensive if there is a kitchen garden to draw upon.

An important consideration is the storage room available. Both pickles and relishes must be kept in a place which is cool but not freezing, dry, and light enough to see that things are in good condition. Wooden spatulas and baskets to stir all cooked pickle mixtures with, and bottles or jars should be filled over a common tray, as mustard and spiced stuff stain and discolor oilcloth or fine table-tops. Using cheap cheese-cloth squares for this work will save other towels.

Creamed Eggs

Break eggs into deep platter, buttered, or shallow baking dish. Pour over them cream to cover, salt and butter, sprinkle with salt and pepper, and bake in slow oven until eggs are firm.

Corn Fritters

One cup green corn, two eggs, four tablespoons milk, four tablespoons melted butter, two teaspoons baking powder, five tablespoons flour, one-half teaspoon salt. Cook like pancakes, using plenty of fat to prevent sticking.

Molded Egg Salad

Chop five hard-boiled eggs—or put through a ricer. Season with salt and pepper. Cream two tablespoons butter in this and press into ginger ale glasses. Place in ice chest for at least six hours. Remove from molds and slice about one inch thick. Place a few rings on lettuce on each salad plate, and serve with a little mayonnaise.

Plum Conserve

One basket blue plums, one pound figs, four oranges, one lemon, one package seeded raisins, three cups granulated sugar, three cups brown sugar, one-half pound shelled walnuts. Wash, stone and chop plums; wash and chop figs. Add the juice of lemons, mix all fruit well with sugar and let stand one hour. Cook slowly forty-five minutes; then add nuts and cook ten minutes longer at 218 degrees. Turn into sterilized jars or glasses, and when cool cover with melted paraffin.

Peach Jam

Two and one-quarter pounds peaches, one pound sugar, one-half cup peach juice, two whole allspice, one-half teaspoon whole cloves, one cracked nutmeg, one cup raisins, one cup and out in small pieces, add sugar and juice. Mix well; add spices and peach seed, which have been tied in a cheesecloth bag, and cook, stirring occasionally to prevent burning. Boil to 220 degrees F. Pack hot in sterilized jars, or pack in the oven at 250 degrees for ten minutes.

Braised Tongue

"Cook fresh tongue slowly for two hours or more, skin, and remove roots. Place in casserole and surround with one-third cup each dried carrot, onion and celery, and a sprig of parsley. Add sauce, cover closely, and bake two hours, turning once. Serve on platter with strained sauce. For sauce brown four tablespoons butter or beef fat and four tablespoons flour. Add gradually two and one-half cups liquor in which tongue was cooked and two cups stewed tomatoes. Season with salt and pepper and one teaspoon Worcestershire sauce. If tomato flavor is not liked, use four cups tongue liquor.

BLACK SALAD SET

Among the new salad sets is one of heavy china painted black, with rim and center decorated with hand-painted flowers. Red predominates in the color scheme. The greens of salads are particularly attractive against a black background. A wooden salad spoon and fork should be used with the set to get the most artistic effect.

Peach Supreme

Peel and slice peaches. Add marshmallows cut up in small pieces (about two marshmallows for each peach). Cover with thin cream and let stand in ice box six or eight hours. Stir several times. This will be about the same consistency as gelatin pudding.

Neapoli Tomatoes

Remove seeds and pulp from six tomatoes. Salt inside, invert, and let stand. The influenza days have come.

HOW'S YOUR HEALTH?

Those who are indifferent regarding the importance of prompt attention to minor cuts and scratches are not informed regarding the danger that lies in attention.

The prompt application of first aid to minor wounds requires neither skill nor the expenditure of money; just a few minutes of

half hour. Cook three tablespoons butter with six tablespoons chopped green pepper five minutes. Add three-quarters cup tomato pulp, one-quarter teaspoon salt, one-eighth teaspoon pepper, few drops onion juice. Fill tomatoes and bake fifteen minutes.

Delicious Baked Corn—Cut corn from eight ears, add yolks two eggs, salt, pepper, butter, and one tablespoon sugar. Cook ten minutes, stirring constantly. Add one-quarter pound cheese cut up fine and one chopped green pepper. Cook until cheese melts. Add beaten egg whites and bake one-half hour.

Rather than scrub linoleum with strong soaps and washing powders, use clear water and a soft cloth or mop. If the housewife feels that soap is necessary, use a mild soap. Linoleum may be waxed as a floor is waxed, the finished result giving great satisfaction, as this waxing fills up the pores of linoleum, causing it to resist soil.

Allied War Vets Strive for Peace Under U. S. Leader

At this time, when Europe is on the threshold of returning to peace time conditions, it will be the policy of the Federation of Interallied War Veterans to lay a foundation for an international peace, says Thomas W. Miller, alien property custodian of the United States, who is the new president of the federation.

Minor cuts are ports unguarded, Where pirate microbes swarm ashore; But we'd hang 'em to the yardarm If we'd use precaution more.

Nature has provided our bodies with substances which, under ordinary conditions, protect us against microbial invasions.
