**"Every day  
 in every way"**

"Yes, sir, this old Ford actually seems  
 to be getting better every day. Since I  
 drained the crankcase and filled up with the  
 new Zerolene 'F' for Fords, she starts quicker,  
 has more power, and seems to go a little  
 farther on a gallon of gasoline."

Zerolene "F" for Fords gets to all the parts  
 where oil is needed, especially the wrist-pin  
 bearings and the upper half of the cylinder  
 walls, which are frequently "oil-starved"  
 when an unsuitable lubricant is used.

Zerolene "F" for Fords is made by the  
 Standard Oil Company's patented vacuum  
 process. It deposits a minimum of carbon.

Yet Zerolene "F" for Fords costs not more,  
 but less than most of the special Ford oils on  
 the market.

A Ford is an A-1 transportation invest-  
 ment. Protect your investment by proper  
 lubrication.
