## New Ford Cars Hurries Orders To Local Firm

Widespread Interest Shown in Attractive Models of Popular Car

As people become more familiar with the attractiveness of the improved cars interest not only increases, but orders for cars are growing in number, according to local Ford dealers.

Probably the best evidence of the widespread interest manifested in these cars comes from the general offices of the Ford Motor Company at Detroit, where it was stated that since the new cars were announced orders for more than 192,368 have been booked by dealers throughout the United States. Thousands of orders are coming in every day.

This is not only a striking example of public confidence in the company's products, but also a sales record without precedent.

Added significance is given the sales report by the fact that the public generally has not yet had an opportunity to inspect all the new types. Distribution of cars among dealers so far has been limited principally to touring cars. In fact, dealers in many sections are still awaiting their first car. In spite of this, orders continue to come in from all points not only for cars of the type shown, but the rest of the open and closed line as well, an indication that prospective purchasers are impressed with the soundness of the cars and are satisfied that they will find the same standard reflected in the type of their preference.

Assembly at the Los Angeles branch of the company, which supplies this territory, is increasing daily, and distribution among dealers will be much more rapid from now on than it has been up to the present time. However, those desiring a new Ford car for use during the coming fall and winter will do well to enter their order early and avoid delay in delivery.

## Local Man Kills Snake; Finds One More in His Bed

Here's a good one: A certain local business man, "nameless here forever more," found a snake in his back yard the other afternoon, and killed it.

That night when he threw back the bed covering preparatory to retiring he found another snake coiled up in the middle of the bed.

Gentlemen, hush! He's moved his bed as far up in the building as the roof will allow, and that's not nearly high enough.
