Only a Buick Could Stand this Test!

Buick has the only chassis built today that can take a "shower bath" while the engine is running and driving the wheels.

Only Buick provides the design which can undergo such punishment. Of all cars built today, Buick alone has the complete protection of the "Sealed Chassis" and "Triple-Sealed Engine."

Every Buick operating part is "sealed" inside a dirt-tight, oil-tight, water-tight iron or steel housing. The "Triple Seal" (air cleaner, gasoline filter, oil-filter) keeps dirt, grit and moisture out of the engine.

Road slush and grit cannot reach Buick vital parts. Rain and moisture cannot cause short circuits in the Buick electrical system. Even the spark plugs are protected!

Come in and see, with your own eyes, why Buick motor cars are more dependable. Only a Buick could stand the "shower bath" test!

9 Reasons for World Leadership

IN your own home—test the Maytag. Do a week's washing without expense or obligation. Prove convincingly that it will wash everything—the finest fabrics, as gently as by hand—the heavy, bulky things—even grimy, greasy work-clothes—more thoroughly than in any other way.

Prove that the Maytag washes tubfuls unusually clean in 3 to 7 minutes—whole washings—50 lbs. of dry clothes in an hour. Prove that it washes collars, cuffs, wristbands, without hand-rubbing. Prove that

it washes cleaner—faster—quicker—easier than any other washers.

Prove that the heat-retaining, satin-smooth, cast aluminum tub keeps water hot throughout an entire, big washing. That water stays clean. That the tub cleans itself in 30 seconds after the washing is done.

Phone for a Maytag—we will gladly deliver one for any washing test you want to give it. Treat it as your own—test it thoroughly—use it unsparingly.

If it doesn't sell itself, don't keep it
