Owes Twenty Million Dollars But He Says He'll Pay All

(By NEA Service)

OAKLAND, Calif.—How would you like to go broke for \$50,000,000? How would you like to start life all over again at 67 years of age—just when most of your friends were retiring from business?

How would you like to start this "second life" with a debt of \$20,000,000?

That is what happened to F. M. ("Borax") Smith. And Smith, now 80 years old, will have every cent of his \$20,000,000 debt paid off in five years.

Smith has had two dreams in his life. He went broke in 1913 because his first dream had not come true. Now that dream is coming true and the second dream is coming true along with it.

Discovered Borax
Smith's first dream was to make Oakland the metropolis of the Pacific coast. His second was to pay his debts before he died.

Smith came out of Wisconsin to Idaho some fifty years ago. He made big money buying timber and selling it for firewood. He switched to mining. He discovered borax, made it a household necessity, "put over" the "20-mule team," and became a millionaire 20 times over.

He came to Oakland with his millions 40 years ago. He dreamed of Oakland as the metropolis of the Pacific. He bought land—land—land—and yet more land. He organized a street railroad system

and ran cars into tracts dotted with stumps of recently cut trees. The people, who were to come, must ride. They would need water, too, so Smith organized a water company.

But in 1913 came the crash. The people had not come fast enough. Even the fabulous profits from his borax mine wouldn't keep the financial ship afloat.

Bought a Mountain
"I'll pay you all back before I die," Smith told his creditors. He sold his borax holdings to pay some of his bills. For seven years Smith was working quietly—almost forgotten.

Then one day he came back from Nevada. He had bought a mountain of borax. He organized a new company. He paid some more of his debts. And about this time, 1921, Smith's big dream began to come true. The people for whom he had planned and hoped for many years began to come to Oakland.

Smith's land increased in value. Many tracts were cut up.

"Because of the enhancement of the real property... we believe that within the next five years this property will not only pay the entire debt but will provide a substantial sum in excess of this debt," reported a committee of his creditors the other day.

"I am glad and I want to live," said Smith.

Bowling Notes

Sidelights on This Week's Games

In a special match at the American Club bowling alleys last Sunday evening Tansey's Barbers went to defeat at the hands of the Americans by a total score of 2758 to 2478. M. Darling and Lou Weinsinger of the American squad were high pin men with 617 and 609, respectively. A good sized crowd was present to watch the boys toll.

The new management has done much good work in bringing the alleys up to a high standard of perfection and added interest in the bowling game has been their reward.

"Bob" Pratt, an employee of the Union Tool Company, and a man of wide experience in the bowling field is in charge of the American alleys and is now perfecting plans for the organization of a large winter league. Friends of the game will be pleased to hear of his affiliation with Mr. Bender, proprietor of the American Club.
