"Chi Chae" Chinese For Dodge Brothers

Among the latest purchasers of a Dodge Brothers motor car is the governor of Kansu, a province of China. Kansu's greatest claim to fame appears to be the fact that it is just about as far from civilization as anyone can get. It is 1500 miles from the nearest railroad and situated in the extreme northwestern section of China. According to Ralph C. Scoville, Christian worker, who has recently returned from China, Dodge Brothers motor cars and Graham Brothers trucks are gradually replacing the "mule sedan" and the great mule drawn caravans of commerce. "Kansu," stated Mr. Scoville, "which is one of the 18 provinces of China, is also known as the terminus of the great wall. Here, in this isolated region, which takes three weeks of tedious, constant traveling to reach after leaving the railroad, I have lived and worked for over seven years. Dodge Brothers motor cars were the only automobiles I ever saw there. I am told this is because these cars seem to be the only make that can survive in this land of indescribably bad roads. The road, in reality a widened trail, runs from Lanchow on the Yellow River to the heart of Asia, where it meets similar roads from the Indian Ocean and the Caspian Sea and others. "Over these trails an occasional

Dodge Brothers motor car plows through, driven generally by Russians, for the Chinese are notoriously bad chauffeurs. The particular Dodge Brothers motor car that I am referring to was purchased by the governor of the province of Kansu. He lived in Lanchow. The appearance of the governor's car upon the streets would cause cries of 'chi chae,' the literal meaning of which is steam car or power car. The car is a great curiosity and excites much comment among the raw heathen as to what makes it go, the general belief being that it is the invention of some foreign devil. "It is, in my estimation, a great compliment to the stamin and strength of Dodge Brothers motor cars and Graham Brothers trucks that they are found operating in this roadless region, and it is what prompted me to write you of my contact with your products," Scoville states in his letter to the home office in Detroit.

Howard and Barkdull, owners of the grocery and meat departments, respectively, are making plans for a formal opening the latter part of this month. The event will be a joint Opening and Second Anniversary celebration. While all the facilities in the new home have not yet been completed, the proprietors state that they are sufficiently settled to take care of the needs of their customers.
