TOWNE TALK

"Just for Fun" By RAS BERRY

I guess they is about six refineries going to be put up by the General Petroleum from the way the different newspapers around here is printing things about it.

The Lomita Progress says the G. P. is gonna build a big plant north of Lomita and east of Redondo.

The Gardena Valley News says it is gonna be south and west of Moneta and Gardena.

The Redondo Beach papers say the G. P. is about to erect a huge plant near Redondo.

And all the time we thought the land the G. P. bought was in Torrance. I guess after this we'll have to study these factory news items more closer so we get our geography straight when we come to write things for the old family newspaper.

Nate Groenke he left Monday for South America and last week the Legion boys give him a sendoff party at the clubhouse. Nate tells Fred Palmer he is going to send Fred a crimson-stemmed ape from the jungles.

Fred says Nate should send one that is ancient because it won't cost him no more to ship it and when it arrives it will be two.

Since Ed Nelson come here from York the Columbia Steel has started a big expansion program and a lot of development has started. Ed don't take all the credit for these happenings because he says

he is careful of extending too much credit even to his self.

Doore Raz:— Here is a question for your help wanted column. It hez come tu ar notiz that a onery fish lately escaped from Bill Wrigley's aquarium is now taken sun baths rto out-in that back yard of his' with nuthin to protect him from the eyes of the world but dirt or maybe flesh colored meskitto nettin. We want tu know if we couldent have him do his stunt in the auditorium with the rotten floor. HELL—N.

Hell—N's idea is not so good, because if he got into the auditorium he too might throw some dirt and then he would be all uncovered.

Hurum Reeve was readin some economies stuff and he starts telling his boss about production costs and so forth and she says production costs is the bunk because it don't oast a hen no more to lay a 46 cent egg than it does a 54 center.

Household Hint! Don't never take your screens off to paint them, unless you own a big dawg. The screens on our house has been off some time and cats has been jumping through the windows into the house every night like doves. The other night I wakes up. I don't know what was such a weight on my feet I thought the boss had moved the icebox on to the foot of the bed. I loosens one foot and gives a healthy kick and three cats leaps for the open windows.

We parks our clothes for the washing on the screen porch which ain't got no screen and at night the cats in our neighborhood and they is plenty of them holds a paw on the screen because most of the delegates bolted the convention when I walked in.

The boss she says about all you can do with these screens off every night is to take cat naps.
