Morley Drury, Famous Star, To Present Trophy to Torrance Lads Here Thursday, April 21

By A. LYALL.
At the Methodist Church, next Thursday evening, April 21, commencing 8:30 p.m., is being set apart for the express purpose of doing honor to the Torrance basketball team. This group forms one of the teams, comprising the Harbor League, organized three months ago, and which takes in the churches of San Pedro, Wilmington, Lomita, Gardena, Torrance, Redondo. In every game, equipped in their splendid "blue and gold," the Torrance boys have defeated their opponents and shown themselves masters in the art of play.

The evening program commences with a dinner at which 200 or more will be seated and places can only be had by reservation (tickets 50 cents). The catering is in the splendid hands of a committee of the Ladies Aid Society. All of the neighboring teams will

be present and each will perform a special stunt, musical or otherwise, including several pieces from the San Pedro orchestra. The main item of the evening will be the presentation of silver trophies and pennants. This presentation will be made by Captain Morley Drury, famous as both basketball and football star and appointed captain of the University of Southern California football eleven for next season. There will be other athletes accompanying the famous Trojan captain and we hope the men of Torrance will avail themselves of this opportunity and get a "close-up" of these players. The silver trophy awarded to Torrance will bear the names of the boys who have so creditably acquitted themselves in every game during the season—Harry Phillips, Ray Steppy, Richard Von Hagen, Arnold Campbell, Ben Townsend, Warren MacMillan, and Turner MacLean.

Resume Drilling On Wildcat Well On Western Ave.

The Chevro Oil and Gas Company has resumed drilling, under the supervision of J. C. Theriot, Long Beach oil operator, in the test well on Western avenue near Moneta, which temporarily ceased drilling on January 19 last. The well was originally spudded in on January 2 this year and after

drilling just 17 days had reached a depth of 2765 feet, when the company was obliged to suspend operations until it could be re-financed. At that time there were also some problems in connection with the company's lease, which have been solved satisfactorily. Plenty of funds are now available to complete the well, which Mr. Theriot says can be done in about 15 days, if good luck follows them and there are no bad fishing jobs, and if it is not necessary to go beyond the 4800- or 4900-foot depth,

which is about the average depth of the wells in the Athens field. If the oil sand is not reached by then, drilling will be continued to a depth of at least 5000 feet to thoroughly test the territory.

R. N. A. MEETING

A very important meeting of the Royal Neighbors camp will be held Friday evening at 7:30 at the Knights of Columbus hall. All members are urged to attend.
