THE PROVING GROUND OF A MOTOR CAR

Scientific tests of automobiles and trucks are made daily on the General Motors Proving Ground, a tract of 1245 acres near Detroit. Over the straightaways, up the steep inclines, through deep sand and mud, the speed and endurance of the Chevrolet is put to a test that includes all driving conditions. Every test car is driven about three months from 30,000 to 50,000 miles. The car is then taken apart, tested and inspected, all evidences of wear are noted and problems of manufacture and operation are successfully solved. The General Motors Proving Ground is the laboratory from which has been developed the efficient Chevrolet Motor car of the present day.

Guests at Thanksgiving dinner at the home of Mr. and Mrs. Carl Hyde will be Mrs. Hyde's mother and sister, Mrs. C. T. Bowen and Miss Dorothy Bowen of Redondo Beach.

TOWNE TALK
 "Just for Fun"
 By RAS BERRY

Minnesota, 13; Michigan, 7

Ouch!
 Them Swedes forgot themselves and went crazy.

The only Scandinavian which was not paid off in Torrance was Jens Jensen.

Even Spud Murphy, football sage and picker extraordinary, he was on Michigan.

Ouch!
 It was the first time Minn. has beat Mich. since Geo. Proctor wore a stock necktie.

Them drugstore cowboys was listening in on the game and the announcer he says we have just had a long distance telephone from Torrance and Hank Ulbright and Harold Kingsley is giving a barbecue down there and they is 300 people listening in I hope they is all pulling for Minnesota. The local cowboys broke four counters getting out of the store to find out where the barbecue was at.

They wasn't so hungry after the game.

The announcer's hopes was granted. We was pulling for Minnesota—only in the wrong direction, and they outpulled us.

And now all the talk is about Notre Dame and U. S. C. I have quit hazarding opinions about how football games is going to come out.

Ouch!
 All I will predict about Notre Dame and U. S. C. is that they will be four quarters to the game and four quarters make a dollar. And whoever wants it can have it by picking U. S. C. and letting me know about it.

Don't shove, men.

Chick Curtis he went over to see Mike Fix after the fire and he says did the cash register burn up and Mike says No because Dewey he rushed in through the flames and saved it and Chick says Gee that's too bad I sent you a check Saturday and I was hoping it burned up.

The bus mgr. he got quite a kick over writing a ad for a fire sale for a filling station.

Ouch!
 I guess he thought Mike was gonna sell gasoline slightly burned.

They ain't much that seems funny to me this wk. At the end of

the 1st half of that Mich-Minn game I thought of a lot of wise cracks. But them two Swede touchdowns drove them all out of my head.

So this is a mourner's bench this wk. instead of a funny column.

Ouch!
 I didn't pay W. Post off the day of the game and he tried to charge me interest.

OUCH!
SCHOOL NEWS

ELEMENTARY SCHOOL

The Los Angeles members of our faculty entertained the other teachers at 7:00 o'clock dinner Saturday evening, Nov. 19, at the home of Mrs. Matthews on Maltman avenue.

Dinner was served to forty guests on small tables placed throughout the lower rooms of the house. The decorations carrying out the Thanksgiving motif were used later as part of the evening's games.

The hostesses were the Misses Horgan, Fairmain, Henderson, Tafe, Holt, Crimmins, Barnham and Mesdames Dean, Haskin, Russell and Matthews.

On Wednesday, November 16th, one half of the girls of the A6 cooking class prepared and served a breakfast to the other half of the class. Mary Clay acted as hostess. Outside guests were Miss Crimmins, economic teacher; Miss Henderson, A6 teacher and Mr. Bell.

The girls of Torrance school won the girls Play Day that was held on the high school grounds this year.

The schools entering the contest were Gardena, Carson street, Dominguez and Torrance. Torrance took first place, Gardena second, Carson street third and Dominguez fourth.

The teachers trained the various groups in a very efficient manner, and the girls showed their good sportsmanship by their willingness to take part and the great effort they made to win.

After the different events and games were over, the whole group of girls formed into circles on the lawn and took part in folk dances to the music of a splendid electric gramophone, which was loaned to the school by the Wurlitzer company of Torrance. Mr. Huddleston very kindly loaned his truck to bring the machine to the school. It was a beautiful sight to see such a large number of girls doing the pretty folk dances and one which we hope to see again on our next play day.

Mr. and Mrs. J. H. Fess and sons of Arlington avenue will be Thanksgiving guests at the home of Mrs. Fess' sister, Mrs. S. O. Carruthers of El Monte.

WHEN YOU SEE THE NAME

Kolster

On A Radio Set
 It Means Something

It means that the set is the product of Frederick A. Kolster's inventive skill, long experience and expert knowledge. It means that you—when you own a Kolster Radio—have at your command the proven genius of the man who invented the radio compass used by our largest ships to find their position at sea; the man under whose direction some of the largest stations in the world were built; and the man who, at the head of the Bureau of Standards, is largely responsible for the present high standards of radio. Add the resources of Federal-Brandes, Incorporated, and the integrity of the Kolster dealer organization and you have a combination that really means something.

KOLSTER RADIO
 from \$89.50 to \$375.00
 Less Accessories
 May be electrically operated

The model here shown is the new 6-G, a handsome console with built in loud speaker—the latest Kolster achievement, a marvel in true musical re-creation. Price \$185.00 less accessories.

In order to fully appreciate Kolster values you must see and hear one.
