Torrance Building and Loan Has Made Great Strides and Helped to Build City; Seeks Depositors

Not the least of the agencies which has contributed largely to the upbuilding of Torrance is the Torrance Mutual Building and Loan Association. An insight into the progress of this important institution may be gained from the knowledge that the company's assets have grown from \$43,000 in 1923 to more than \$270,000—a great growth over a period of five years. The Torrance Mutual Building and Loan Association makes no building loans outside of Torrance. Since its operation here it has functioned without a loss. Naturally such an organization depends for its current capital on savings deposits, for which a liberal rate of interest is paid. Despite the fact that the local institution has grown rapidly and soundly and despite the fact that through its agency Torrance has been helped forward and a host of homes financed here, the company is still forced to turn down many splendid loans every month. This would not be necessary if more savings were opened—if the people of Torrance realized the value of the association here and in helping themselves by supporting it is still forced to turn down many splendid loans every month. This would not be necessary if more savings were opened—if the people of Torrance realized the value of the association here and in helping themselves by supporting it is still forced to turn down many splendid loans every month. This would not be necessary if more savings were opened—if the people of Torrance realized the value of the association here and in helping themselves by supporting it is still forced to turn down many splendid loans every month.
