**Another Grub Stake**

—And a can of Ghirardelli's chocolate, and that's all the basket will hold! Georgia Hale, Tiffany Stahl star, who made herself famous as Charlie Chaplin's leading lady in "The Gold Rush," is attending to a somewhat more luxurious grub stake, with the assistance of Mr. Brock, at the Piggly Wiggly store in Beverly Hills. Miss Hale is another of the film stars who have responded to the unusual and economical method of marketing introduced by the Piggly Wiggly Western States company. It's a lark, she says, from the moment you push your way through the stile and let yourself go among the rows of neatly shelved goodies. "The fruit and vegetable counters are always so inviting, too," said Miss Hale, as she added a bunch of golden carrots, scrubbed until they shone, and a couple of smooth green avocados. The Beverly Hills market is representative of the entire chain of well-kept, completely-stocked and ably managed Piggly Wiggly stores that are scattered all over the country.

**V.C. French New Sunday School Superintendent**

Succeeds Robert McCartney Who Asked Not to Be Re-Elected

The Monthly Conference of Sunday School officers and teachers was held in the Ladies' Parlor of the Community Church on Monday evening. This was a gathering of exceptional importance as officers were to be named for the coming year. A fine spirit pervaded the meeting from beginning to end and the entire group present entered heartily into the work of the evening.

For the past three years Robert McCartney has been the earnest

and energetic superintendent of the intermediate department of the school. After speaking of the joy he has had in the work during these years and of his deep interest in the work Mr. McCartney requested that he be not re-elected. After much friendly discussion his request was headed and V. C. French was selected as superintendent in place of Mr. McCartney. Mr. French has moved to Lomita in the past year from Santa Barbara where he was a Bible school superintendent for a number of years. Miss Irene Mills was re-elected superintendent of the junior department and Mrs. E. S. Herrington was also re-elected superintendent of the beginners and primary department.

A committee was appointed to consider the advisability of organizing a senior department at an early date. If such a department is organized the influence of the school in the community will be greatly increased.

The Sunday School is one of the strongest and most aggressive organizations of the local church and has done a wonderful work in Lomita. The church officials believe

that there is still a great field to be cultivated and they are looking forward to a much larger and better school in the future. Mr. McCartney, the outgoing superintendent, who has been active in Sunday school since he came to Lomita four years ago, will still continue actively with the school, and may be selected to lead another department to be organized later.

**Keep Refrigerator Full to Save Ice**

Housewives will be interested to know that tests conducted by the

food preservation bureau of the Union Ice Company definitely prove that a refrigerator uses considerably less ice if the ice chamber is always kept above half full. When the ice supply runs low the temperature in the refrigerator starts to rise. The remaining ice therefore melts at a more rapid rate thus unnecessarily increasing the ice bills. More important than the ice melage is the fact that when the ice supply gets low, the rising temperature within the refrigerator endangers the foods stored in it.

**ARE YOU INTERESTED in the truth regarding refrigeration?**

WHAT FORM of refrigeration is REALLY THE BEST from every conceivable viewpoint for domestic purposes? Not which is the cheapest—nor the most expensive—not which is the most advertised nor the most stylish—but which is really best?

Is Ice Refrigeration best?  
 Is the Electro-Chemical Machine best?  
 Is the Gas Refrigerator best?

In a series of advertisements we will give you scientific facts on Refrigeration which every housewife should know. Remember we promise scientific facts—not opinions. We learn that a certain percentage of Ice Users have reached the conclusion that because some other form of Refrigeration costs from 3 to 5 times more than Ice that it must necessarily be better. So we have felt that a general circulation of the TRUTH REGARDING REFRIGERATION would prove beneficial to you as well as to ourselves.

*I says to Hudd*

Well the population sure did turn out to give us the glad hand Saturday, didn't they?

And Hudd says, Yeh, some of those big town salesmen we had out here didn't think there were that many people in Torrance.

And I says, do you suppose when we are having our departed virtues praised to our weeping friends we'll have as many flowers as we had Saturday?

And Hudd says well, we can appreciate these flowers more now, anyway. And even more than the flowers I appreciate the good wishes. It makes a guy feel pretty good to know that so many people will turn out to wish him luck.
