"EAT YOUR IRON" WEEK

Gladys McConnell, Wampas Bay Star, reminds the world that "National Raisin Week" will be celebrated April 23 to 28 with April 28 designated as "National Raisin Day."

special raisin dishes during the week. Miss McConnell also calculated that the 285,000 ton annual crop of raisins would make 1,140,000,000 pies or placed one on top of the other would make a pile 2250 miles high or the distance over the Union Pacific from Los Angeles to Chicago.

Keystone Notes

Wild-Eyed Men Loose in Town; There's Reason

Don't worry over the mental condition of local men who are walking around these days with a far-away look in their eyes. They are not slowly going crazy. They are casting their thoughts into the near future.

The trout season opens in California on May 1.

Many a local knight of rod and reel is unwinding line, caressing flies, practicing at the cast and whispering to pals that "I know a place where they bite every other cast and there ain't only ten men that have ever fished it. I'll take you there and if we don't come back with—you know the rest. C. A. Paxman, hardware dealer, and somewhat of a fisherman himself has laid in a large stock of tackle and invites the world at large to step in and look it over. "Pax" is enough of a fishing fan to argue about different kinds of flies with anybody who steps up with an opinion—and fishermen say they like to buy tackle from a guy who knows his flies.

Be that as it may the season opens on May 1—and "Pax" will issue fishing licenses as he does every year. All of which indicates that the population here on May 1 will be a lot less than it is on April 30.
