# Torrance Should Help Re-Elect Supervisor

# R. F. McCLELLAN

## NEXT TUESDAY

The eyes of Supervisor R. F. McClellan, representative of this, the Fourth District on the Board of Supervisors, are turned toward the Harbor District.

Without neglecting other parts of the county, Mr. McClellan, as chairman of the Board of Supervisors, has, during the last two years, by policy and action proved his interest in the progress and development of that great area lying between Los Angeles and San Pedro.

As citizens of Torrance we endorse his candidacy for re-election. We do this not only because of his interest in the development of our own district, but because his businesslike administration has been of vast value to the people of the entire county, and because work of such important character is now under way that it would be folly for the taxpayers to trade his experience for the untried abilities of someone else.

Mr. McClellan is leader in the great crusade to save the beaches for the public. He stands determined for a high dam in San Gabriel canyon, knowing that only a high dam will insure the future subterranean water supply of the great area between Los Angeles and San Pedro. He is devoted to his duties and to the interest of the people.

In the interest of good government, economy, far-sighted progress and honest administration we pledge ourselves to vote for Mr. McClellan next Tuesday and urge our friends to do likewise.
