

The new Buick is the new Style

Nowhere such beauty and luxury... nowhere such pleasing lines and contours... nowhere Bodies that equal these new Masterpiece Bodies by Fisher--The entire country is saying, 'That's the Style'

Setting an entirely new, a revolutionary, style--introducing what will unquestionably be the trend of smart body-design during the next several years--the new Bodies of the Silver Anniversary Buick are enjoying universal acclaim as the most original and distinctive, as well as the finest and most beautiful ever created by the world-famous Fisher organization!

Here is not only a new car but a new vogue--a vogue of symmetry, born of gently rounded contours instead of plain straight lines--a vogue of distinction, derived from sparkling colors, brilliant chrome-plated nickel and arresting new roof, radiator and

fender design--a vogue of tasteful luxury, composed of finest mohair velvet upholstery, artistic hardware and fittings and new appointments of comfort and convenience not to be found in any other automobile--

--and the vogue is proving so popular--the motoring public welcoming it so enthusiastically--that this beautiful new Buick continues to outsell all other cars above the very lowest price field by an overwhelming margin!

The entire country is hailing the Silver Anniversary Buick. The entire country is saying, "That's the style!"

Crook Play New Craze of Film Fans

Dolores Costello Seen in Thrilling Role as Girl of Underworld

New York's underworld, that region of shadowed sin whose nightly exploits in crime outstrip the inventions of fiction, is the background of Dolores Costello's new starring vehicle, "Tenderloin," which comes to the Torrance Theatre, commencing Monday.

Crook dramas are the latest craze of popular fancy, and as a background for the emotional talents of the gifted Dolores Costello, a gripping swift-moving drama is promised by Warner Brothers who produced "Tenderloin" from an original story by Melville Crossman, E. T. Lowe Jr., doing the scenario.

Conrad Nagel has the leading male role, while others in the supporting cast are Mitchell Lewis, George Stone, John Miljan, Dan Wolheim and Pat Hartigan. Michael Curtiz directed.

United Players Present New Comedy Drama

Beginning Sunday, October 14th, the Voelkel Brothers of Hawthorne in the beautiful tent theatre will present the United Players, an entirely new company in "Gertie"--a wisecracking good show. You will like this comedy-drama success--"Gertie." She is a blend of sunshine and shadow; a colorful little soul struggling to get something out of life that doesn't belong in her existence. You will be delighted when she actually finds happiness in the end; happiness with the man you want her to love from the very beginning of the play.

"Gertie" is a clean, wholesome, up-to-the-minute entertainment; the kind of entertainment that every member of the family can enjoy. The members of the United Players will have exceptional opportunities to show their skill in the presentation of the play, "Gertie" had a run of seven months at the Bayes Theatre, New York City and did big business. You will like it for the same reasons that thousands of New Yorkers have liked it when you see it at the Voelkel Brothers Theatre, next week.
