Airplane Contest Winners to Get Rides on Saturday

Boy Scout winners of the airplane contest staged last year are at last to be rewarded with the promised airplane rides.

If winners will be on hand at the First National Bank Saturday, Jan. 12—which is this Saturday—at 1 p. m. sharp, Scout Commissioner Moore will see that they will get the long promised rides. The plane will be waiting at the O'Donnell Flying field in Long Beach.

Banish Head Colds

Sneezing? Sniffing? Headache? Beware—let Musterole Laxative Cold Tablets relieve that head cold promptly. Safe, quick relief without griping or ringing in the ears. Chocolate-coated—easy to take. Musterole Cold Tablets are prepared by makers of famous Musterole.

As a special one time trial offer, you may obtain a regular 35c package for 10c by clipping this advertisement and sending it with 10c, also your name and address, to The Musterole Company, Cleveland, O.

LEGION NOTES

Bert S. Crossland Post, No. 170 of the American Legion, held their first meeting of the year Tuesday evening with 32 present. Many subjects of interest were brought up and the meeting turned out to be a very lively one.

Comrade Baer of San Pedro No. 65 was a visitor and made a brief talk. Baer was in the navy during the war and helped take the boys across. Comrade Reeves of Salinas was also a visitor.

Legionnaires are urged to be present and in caps at the annual confab which Boy Scouts are holding Feb. 8. Commander Jamieson earnestly desires the support of the Legionnaires at this time to show the Scouts that they are behind them in this great movement. An Eagle Scout badge will be awarded to one of the Torrance boys that night.

Comrade Turner has one of the very latest musical instruments. A lap organ! Two guesses what it is.

Bert S. Crossland Post is now launched in a membership drive. Two divisions headed by Captain Leslie and Captain Smith are working for the increase in membership for the Crossland Post.

New Malt and Supply House Opens Here

The opening of the new Torrance Malt and Supply House occurred this week. This business is the only one of its kind in Torrance and is under the able management of Mr. Nathan Silverstein, proprietor. The firm carries a fresh new stock throughout. All kinds of cordials for home made punch, cocktails, bottle syrups in numerous flavors, bottles, crockets, barrels, funnels, filters and other accessories are to be found in the store. Mr. Silverstein intends to build and make his home permanently in Torrance.

Carson St. P.-T. A. Holds Meeting

The Carson street school orchestra rendered two selections "Dream Waltz" and "Nocturne" as opening numbers for the Carson street Parent-Teachers' Association when it met on Tuesday afternoon in the school auditorium with Mrs. Charles M. Forrest presiding. It was decided to give a play by the association later in the year and the committee of Mrs. Thomas A. Cowan, Mrs. George Nahmens, and Mrs. Charles H. Pierce, chairman, was appointed to get a play and have it read at the next meeting. A newspaper drive will be held on February 1st. Miss Chamber's room will receive the new victrola record for having the most victrolas present at the meeting. A motion picture, "The Frontier Woman" was shown and greatly enjoyed by the members. Ellis P. Moore Jr., Boy Scout executive, spoke on the Boy Scout work and an invitation was given for everybody to be present at the installation meeting of the Scouts here on Saturday night at the school. Refreshments will be served to everybody present. Following the afternoon meeting refreshments were served by Mrs. Charles Forrest, Miss Ruth Fox and Mrs. E. P. Howe.

Legion Post Invites Public to Hear Uncle Remus and Entertainers Friday Night; No Admission Charge

A Hawaiian entertainment by Uncle Remus (E. M. Honnell) well-known radio entertainer, will be presented Friday night at 7:30 by the Bert S. Crossland Post, American Legion in Legion Hall through the courtesy of the Los Angeles Steamship Company. The public is cordially invited. No admission will be charged. The program will include the showing of a new two-reel Hawaiian film, "Off to Paradise" which has just been made for use by the LASSCO lecturer. With film and lecture, Uncle Remus takes his audience to the Magic Islands for the evening—sailing from Los Angeles on a luxurious modern steamship, and showing them the safety of ship-board life during the six days of the voyage. The film covers island scenes very extensively, touching on four of the islands and including the famous Beach at Waikiki, with surfboard riding and other water sports, native Hawaiians at work and play, pineapple fields and sugar plantations, the daylight trip to Hilo on the Island of Hawaii, the world's largest active volcano, Kilauea, and many other typical Hawaiian scenes.

Plan for Cement Plant Approved

Business Men See No Injury; Urge Trees West of Amapola

Bob Shuler took occasion to advertise Torrance in his nightly radio message Tuesday night. He told his audience that Torrance may be making a mistake in allowing a cement plant to locate here. At the business men's luncheon of the Chamber of Commerce yesterday noon the matter was discussed. The opinion was unanimous that the plant to be located near Walteria in the edge of the Palos Verdes hills and to be dustless will be injurious neither to no part of Torrance, nor to Walteria or Lomita. A large part of the land purchased by the company was brought from the Palos Verdes Estates, officials of which investigated the proposed plant thoroughly before disposing of the land.

Len Murray, associated with Allen H. Paull in the Torrance Dodge agency was introduced to the business men, welcomed with hearty applause.

G. A. R. Steiner, who presided, reported that members of the board of supervisors will visit Torrance tomorrow afternoon to inspect the site proposed here for the erection of a county health center. The proposed location fronts on Carson street near the Legion clubhouse. Dr. J. S. Lancaster declared at the meeting that Torrance always has prided itself on being a beautiful industrial city. He then added that trees should be planted in the Madrid avenue—Cedar avenue district which has recently been improved with evergreen homes. He pointed out that the council be requested to hasten the beautification of the district west of Amapola with trees. The motion was carried unanimously.

Seniors to Give Play on Jan. 18

"Clarence" by Booth Tarkington Will Be Presented by Students

Another clever and delightful play is to be staged by members of the senior class at the Torrance High School auditorium on Friday evening, Jan. 18. All local people are asked to support the class by attending the performance.

"Clarence" by the famous humorist Booth Tarkington, was chosen for the senior play this year. The plot centers about Clarence, a soldier out of work. He secures a position in the Wheeler's private home as secretary and odd job man, and proceeds to mystify everyone with his allusion to bugs, cannibals, saxophones, and miles. He, along with every other male in the cast, falls in love with the governess of pretty Cora Wheeler, and incidentally, draws the devotion of all the ladies to himself. In the end all turns out all right in spite of a few disappointed lovers and whatnot.

Those of the cast are: Clarence, Richard Sinclair; Miss Flacey, Madeline Williams; Mrs. Wheeler, Bob Bartlett; Mrs. Wheeler, Mildred Bell; Bobby, Tom Anderson; Cora, Nyla Tansey; Dinwiddie, Clifford Crane; Della, Mary Flesel; Mrs. Martyn, Virginia Rowell; Mr. Stem, Orville Hudson.

CHRISTIAN SCIENCE CHURCHES

In the Lesson-Sermon on "God," Sunday, January 6, in all churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, one of the references cited in the Christian Science Quarterly was the following, from Matthew xv: "And great multitudes came unto him, having with them those that were lame, blind, dumb, maimed, and many others, and cast them down at Jesus' feet; and he healed them: insomuch that the multitude wondered, when they saw the dumb to speak, the maimed to be whole, the lame to walk, and the blind to see; and they glorified the God of Israel."

The Lesson-Sermon also included, among correlative passages from the Christian Science text-book, this statement by Mary Baker Eddy: "God will heal the sick through man, whenever man is governed by God. Truth casts out error now as surely as it did nineteen centuries ago." (Science and Health with Key to the Scriptures, p. 495.)

Metal Congress to Open Monday

Wonders in Steel Will Be Seen at Biltmore and Shrine Auditorium

LOS ANGELES—Metallic wonders in scores, took their places today in the exhibits of the Western Metal Congress, which opens on Monday, to run until Friday afternoon in Shrine auditorium and Biltmore hotel, Los Angeles.

X-ray apparatus to locate weak spots in structural steel, held interest in one corner, while twist drills so tiny they could be seen only with a microscope proved fascinating in another section. Tensile testing machines, which impose a 50 ton pull on metals suspected of defect; hardness testing apparatus, which delivers a two ton tap on an area smaller than a dime, and impact devices, which impart 10 ton sledge hammer "blows" were among the array of metallurgical curios.

The American Society for Steel Treating, which has the display in charge, anticipates thousands of interested persons will attend during the coming week.

Already the scientists of the metal making plants of this country are assembling for the congress proper, at which eight or ten actual and practical talks and discussions will be given daily.

All of the California metallurgists, technical engineers and other persons identified with the metal industries are invited to attend. The affair is declared by the society to be entirely educational in character and designed to bring better metals into use throughout the country.

R. F. Reins and N. A. Becker of the Columbia Steel Corporation are in Southern California for the congress.

Special Feature at Christian Church

The evangelistic service held at the Christian church last Sunday evening, was the occasion for many special features. A crowd that taxed the seating capacity of the auditorium was present. A song service that delighted those present, was led by Mr. Elder, the pastor of the church. A chorus of sixteen voices sang, "All Hail, Immanuel." Eileen Maskrey, 3 years old, a pupil of John Steadman, read several selections. Mrs. Maskrey sang a beautiful gospel solo and Mrs. Danford and Mr. Elder sang a duet. At the invitation of the pastor eleven people came down the aisles of the church to take membership with the local church.

Nominate High School Officers

Student Body Election for Next Term Will Be Held Soon

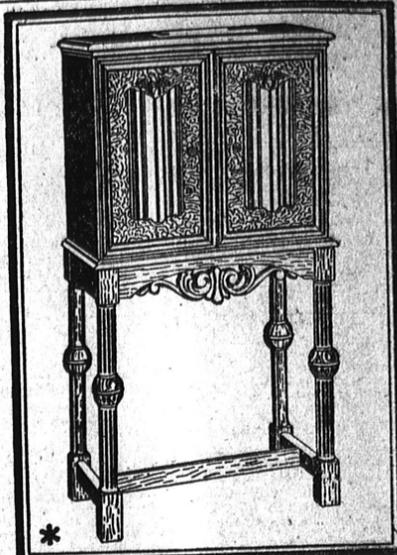

With the new semester almost upon the students everything is bustling with thoughts of the coming election of student body officers. The following students have been nominated for the more important offices: President, Robert Bartlett, Joe Townsend; vice president, Orville Hudson, Charles Ruppel; secretary, Mary Hinman, Beulah Cooper; treasurer, Dorothy Hansen, Margaret Richhart; boys' self-government president, Robert Huffman, Elwood Nahment; girls' self-government president, Dorothy Barrett, Josephine Lupo; advertising manager, Frank Russell, LaDorn Hall; commissioner of athletics, Hartley Carr, John Kolesar; commissioner of oral arts, Howard Schmidt, Charles Faulkner.

LOMITA NOTES

Mr. and Mrs. James McDougall and family returned to their home on Narbonne avenue Saturday after a pleasant visit with relatives in San Diego.

Mrs. Alex MacPhail of Highland avenue with Mrs. Clinton Rapp of Redondo attended the West Coast theatre in Long Beach last Thursday, where they saw "Varsity."

Mr. and Mrs. Will Ragen of Los Angeles were recent guests of Mr. and Mrs. Hugh Seckler of Sun street. Mr. Ragen and Mr. Seckler were boyhood chums.

For seven successive years the radio of supreme quality has been

SEVEN YEARS have seen dozens of makes come and go—shoot like brilliant stars across the radio sky and then disappear. But Zenith has maintained steadily its position of supremacy in the manufacture of high quality sets. It has never faltered from the path of finest design, best material and most careful, accurate workmanship in receivers. Only in that way can true radio satisfaction be built into sets. Quality goes in before the name goes on—that is why Zenith has so long been the world's largest manufacturer of high grade radio.

*Model 35 is a 6-tube All-Electric built integrally with the set. Here is the set for many years of radio enjoyment and for lasting beauty in the home. 30 Models—3 different circuit—6, 8 and 10 Tubes including De-Luxe Models—with or without legs, stretchers and apron carrying. Fully shielded metal construction. Improved cone speaker. \$100 to \$250.

There's No "Question Mark" about their Gasoline—it's RICHFIELD

BREAKING every known record for duration and distance, the *Question Mark*, famous tri-motored Fokker of the U. S. Army, landed at Metropolitan Field January 7 at 2:07:01 p. m.—150 hours 40 minutes and 14 seconds after her thrilling take-off from the same field at 7:26:47 a. m. New Year's day.

For six days and nights, as the giant motors roared their way through space, Flight Commander Major Carl Spatz and his fearless crew battled fog and storm to bring to America the greatest air triumph the world has ever known.

For six days and nights a breathless world awaited news as each succeeding hour brought nearer and nearer the achievement of their great victory, and saw record after record conquered by this sturdy giant of the skies.

RECORDS BROKEN ENDURANCE FLIGHTS
Airplanes, Refueled, Crooy and Groenen of Belgium 60 hours, 7 minutes.
Airplanes, not Refueled, Ristic and Zimmerman of Germany—65 hours, 25 minutes.
Dirigibles, French Dismack 118 hours; Graf Zeppelin, 111 hours.
Spherical Balloon, Kaulen of Germany—87 hours.

DISTANCE FLIGHTS
Airplanes, Ferrarin and Del Prete of Italy, Italy to Brazil 4417 miles.
Dirigibles, Graf Zeppelin, Friedrichshafen, Germany, to New York 6900 miles (estimated).

The first to fill was the straight duration flight record previously held by Crooy and Groenen of Belgium of 60 hours and 7 minutes. Next was Germany's great FAI world's record of 65 hours and 25 minutes by Ristic and Zimmerman; and late in the afternoon of the third day Kaulen's spherical balloon record of 87 hours was passed.

The epochal flight of the Graf Zeppelin over the Atlantic Ocean last October of 111 hours, and the greater previous record by the same balloon of 118 hours made by the French air craft Dismack, were both passed early Jan. 6th.

The estimated distance of 11,000 miles surpasses any distance record with or without refueling—almost twice the distance covered by the Graf Zeppelin and nearly three times that of the courageous Italian Ferrarin and Del Prete in their record breaking flight from Italy to Brazil.

"QUESTION MARK"
A Fokker F-10 monoplane powered with three Wright Whirlwind J-5 motors.

Start of Flight—7:26:47 a. m. Tuesday, January 10, Metropolitan Airport, Los Angeles.
No. of times refueled, 37.

PERSONNEL
Major Carl Spatz, Commander; Chief Pilot, Capt. Fred Eckler; Relief Pilot, Lt. H. A. Halvorsen, Lt. Elwood R. Quessada, and Sergeant Roy W. Howe.

Richfield used in the "Question Mark" is the same famous aviation gasoline that captured four of the six major events in the National Air Derby, the fuel used by Capt. Wilkins on his record-breaking dash over the North Pole—the choice of Art Goebel for his transcontinental non-stop record—the fuel that has won more victories and world's records than all other gasoline combined. Use Richfield in your own car—any starting—power, speed and mileage combined—the best gasoline you can buy.
