**Pittsburg Planning Big Day When Columbia Sheet Tin Mill Opens**

Pittsburg, Calif.—The various committees having details of the Chamber of Commerce Columbia Tin Mill opening celebration, March 12, made their reports to General Chairman H. C. Chapin at the weekly luncheon held here.

Stanley Bergeson, head of the finance committee, announced a subscription from the Contra Costa Board of Supervisors of \$250, and a like amount from the City Council. Bergeson's announcement of the \$500 was enthusiastically received. Further financial aid will be received from the Chamber of Commerce as the membership committee is already at work and is being well received.

Sal Cardinalli of the music committee, reported that he had al-

ready arranged with the Municipal and Mexican bands for their part in the celebration. Cardinalli also announced that a band would be supplied by the California Theatre. The theatre will also arrange for a movie talkie outfit and a staff of movie photographers for other events.

Nemo Davi reported for the bar-becue committee. Davi said that on an inspection trip to the Steel Corporation for a site for the bar-becue, he was cordially received by officials and was offered 4500 square feet of cement floor for the tables, eighteen of which, forty feet long, are available. Davi said that all the material for the bar-becue at which over 5000 people are expected, will be secured from local tradesmen.

Chairman Chapin has been assured by Harold Costello that a tri-motored Fokker monoplane of the Standard Company will arrive here for the celebration.

Chapin will ask the Commander of the American Legion, W. H. Moore, to assign members of the Legion to direct the auto caravan from the downtown district to the tin mill grounds.

A number of merchants have suggested their intention of closing their business establishments for the day of the celebration. Chapin urges all stores to close for the entire day.

Governor C. A. Young will be here and make an address. Sumner W. J. Buchanan, Mayor Hugh H. Donovan, Rev. L. A. Naselli and Rev. C. C. Champlin will participate in the exercises.

**SPORTS**

**Narbonne Beats Torrance Squad**

The Gauchos took their old rivals Torrance into camp Monday afternoon by a decisive score in a practice track meet. Narbonne took first place in all events and most of the second and third places as well.

The class A madley relay team composed of Roy Dawson, Morginson, Chesley Jeter and Johnny Powers won in easy style. The class B 880 relay team composed of Morginson, Clayton, Dawson and Wolverson, Narbonne, took the opposition. The class B 880 relay team consisting of Goldine, Hirata, Chapman and Barnett had an easy victory. Heromi Sasaki, Homer Kelly, Tautoni Masakawa and Billy Powers made up the winning class C madley relay team.

Oran Buck won the shot put with a toss of 12 feet, 3 inches, with Bartlett, Torrance, second and Sautlich, Narbonne, third. Halley and Wolverson, Narbonne, took first and second and Ludwig, Torrance, third in the class C broad jump. John Hammack won the pole vault for Narbonne at 9 feet with Wolverson, Jones and Halley, next in line. Stanley Asptille won the class B broad jump with John Hammack second and Fjulkner, Torrance, third. Reimo Maki won the class C hurdle race with Wolverson, second and Higgins, Torrance, third. Goldine, Hammack and Birnst took all three places in the class B shot put for Narbonne. Robert West won the high hurdle race with Rugraff second and Wolverson, third.

Chesley Jeter won the mile run with Stevenson and Weber taking the next two places. Tautoni Masakawa won first place in the class C 100 yard dash, with two Torrance men next. Reimo Maki won the class C shot put with Lupo and Ludwig of Torrance taking the other two places.

**Club Learns of Goodwill Work**

Mrs. Dudley Tells Women About Big Charity Institution in L. A.

Mrs. Elaine Anderson Dudley, executive secretary Woman's Auxiliary, Goodwill Industries, of Southern California, explained the work of the industries at the Women's club Wednesday afternoon. Mrs. Dudley showed a number of articles that had been made from scraps that a person would think no use at all. Also samples of what they can use at the industries. While asking that club members take bags, Mrs. Dudley told them never to put in a good-will bag anything that could be used in the local work. Nothing is useless that comes into their hands. Old newspapers are shredded and sold for packing fragile articles, old scraps of clothing too far gone or too small to make quilt pieces are labeled and sold to paper manufacturers.

Said Mrs. Dudley: "Do not stop to wash or clean anything that goes into these bags as washing and cleaning of these articles give work to some one who has no other way to earn a living. The Good-will industries are a constructive charity as they try to teach those who are capable a way to earn their living and those who, because of age, ill health or some other infirmity are not able to obtain work elsewhere, are put to work there. One old lady cuts hooks and eyes from the garments that come in. The Goodwill will take anything in their bags but tin cans and broken bottles."

"Twenty-eight thousand men were given employment through the old newspapers and magazines that come in to the industries. \$248,000 was paid in opportunity wages to the opportunity workers. Not to salaried workers but to those actually needing it."

"Not one thing is discarded. One woman turned out over 4000 dolls at Christmas time from the parts that had been sent in. You may send in one doll arm and someone else send in one that will match it. These industries are doing more than material good. They are putting red Christianity into their lives. At a meeting of the social service workers in the Los Angeles city hall last week it was stated that more than 60,000 men and women are out of employment in Los Angeles."

"There is a day nursery in connection with the industries where a mother may leave her baby while she works. This nursery is also a nursery school."

Mrs. George M. Anderson, chairman of the philanthropy section of the Redondo Women's club, gave a report of how they managed their philanthropies.

Mrs. H. H. Dolley, first vice president, presided. Mrs. Dolley stated that Mrs. Frank Sammons had accepted the presidency of the club. Owing to Mrs. W. M. Brooks entering the business world she resigned as president of the club and for a while it seemed as if no one could be found to take her place.

At the last board meeting Mrs. Sammons graciously consented to once more take the office and guide the club throughout the remainder of the club year.

Mrs. E. Edmundson will take Mrs. Sammons' place as recording secretary. Mrs. C. E. Chamber resigned as chairman of ways and means and Mrs. R. V. Roelofs was appointed in her stead. The club is waiting now for some one to offer to serve as parliamentarian. The office is open for any club member who wishes to serve her club in this way.

In accepting the gavel from Mrs. Dolley, Mrs. Sammons responded in a very few words, quoting from a talk Edward Everett Hale gave some Sunday school children years ago when he said, "Children, you may not like your duty but DO IT."

On February 20 the program will be under the American Home chairman, Mrs. O. W. Hudson. On March 5 the club will have a silver shower. Each member is asked to bring a piece of silver-ware. The club uses the silver-ware sold by Mr. Woolworth and the pattern is called the Alps.

John Steven McGroarty will give a lecture on "Early California" for the benefit of the club of the Eighteenth century pictures in the Huntington Art gallery will be shown.

**Night School Five Beats Riis High**

Narbonne's high powered night school basketball team defeated the Jacob Riis Nighters, 41-20 in a fast game played in the Narbonne gym last Wednesday night. The score stood 25-4 in favor of Narbonne at half time, but Riis came back strong and made a real game of it the second half. Sorenson, center, and Conner, guard, were high point men for Riis. Captain Ruelven Johnson was the outstanding star for Narbonne and chucked 23 of his team's points. John Yelovich with 12 and Fred Montgomery with six were the other high scorers for Riis. Hamack scored three. McNeil, Perry and Straight, although not scoring played nice floor games and fed the ball to their team mates. Narbonne is now tied for first place in the league standings. Next Thursday night at 8 o'clock Narbonne meets San Pedro in what promises to be the best game of the season.

**Tansey Ball Team Defeats Clemente**

Ed Tansey's Torrance ball team made it two out of three when they met and defeated the strong San Clemente aggregation on its home grounds Sunday at Ole Hanson's City by the sea.

The final score was 4 to 2.

On Sunday next, Feb. 17, the Tanseymen will lock antlers with the Bell Moose at Bell. A rattling good game is expected.

**Hello Girl Will Tell You Time**

Phone Company Announces New Service to Subscribers Here

The time of day may now be obtained from the telephone company this morning.

This announcement was made by Fred W. Smith, district manager of the Pacific Telephone and Telegraph company. The quoting of time to the nearest half-minute will be a regular twenty-four hour service to all Bell System telephones on the Pacific Coast, according to Mr. Smith. His statement follows:

"This seemingly small service of giving out the time of day to all subscribers, amounts to an enormous number of calls when the more than a million telephones operated by Bell Companies on the Pacific Coast are taken into account."

"We have wished for a long time to have this service, and the rapid growth of other demands of telephone facilities following the war, and the growth of this part of the country have made it impracticable. We are now equipped to give out the time of day with the most exacting with regular telephone service, and it is with pleasure that we make this announcement."

"In order to learn the time of day will only be necessary to lift the receiver from the hook and ask the operator. The time will be given to the nearest half minute; as for instance, 'Seven forty-five and one-half' calls when the 'Telephone' calls made for the purpose of securing the time of day are communications inherently the same as other local calls. The charge, therefore, for this additional service will be the same as the charge for any other local call. This means that in the case of Torrance and Lomita where all telephones are on a flat rate basis, excepting for coin box and other public stations, the time service will be rendered at no additional cost. From coin box stations the charge will be the same as for any other local telephone call, which is 1c."

"This time giving is in accordance with our policy of continuously improving and broadening our service, and we are happy that we are now equipped to go ahead with it."

Save, save, save. The page of Super-Specials will do the trick.

**There is no standing still**

DURING the past two years 6000 switchboards have been reconstructed in the larger cities served by the Bell System to enable the operators to give a more direct and faster service.

Previously in towns where there were more than one central office, your operator would hold you on the line while she got the operator at the other central office on an auxiliary pair of wires. Now she connects directly with the other central office and repeats the number you want to the other operator. You hear her do this so that you can correct her if there is any mistake.

This little change cost millions of dollars. Likewise, it saves millions of minutes a day for the public and it has cut down the number of errors by a third.

It is one of the many improvements in methods and appliances which are constantly being introduced to give direct, high-speed telephone service. There is no standing still in the Bell System. Better and better telephone service at the lowest cost is the goal.

**Compare Majestic with any Radio on the market**

THERE is but one way to effectively judge the merits of any radio receiver. No one, no matter how observant, can describe the appearance or performance of such equipment in mere words. It is for this reason that we urge you to see and hear the new Majestic Electric Radio for yourself. Take the beautiful Majestic Highboy pictured here, for instance. The delicate shadings of the matched panels in the inlaid doors... with the startling changes in appearance under different lighting effects... cannot be described. You must see it in order to appreciate it. Neither can one describe the efficiency of the famous Majestic receiving circuit... the tonal fidelity of the Majestic Dynamic Power Speaker... the sturdiness of the Majestic Power Unit. Only your own eyes and ears can do these things for you. That's why we say compare Majestic Electric Radio with any radio receiver on the market, regardless of price, and convince yourself that it is the one genuine bargain of the radio industry.

(This advertisement is published by the Associated Majestic Radio Dealers whose names appear below. Any of them will gladly, and without obligation, demonstrate the new Majestic Electric Radio in your own home, free of all cost.)
