Men and Mortar

A BUILDING is nothing but a mass of stone and steel and lumber given form and held together by mortar, rivets and spikes.

That much you see. But what about the men? The men whose capabilities are mixed with the mortar so that the building not only assumes form, but adheres to a standard of superior workmanship and remains as a profitable investment to the owner?

Such Men Achieve A Unity of Purpose

through this organization. And this organization with its successful record, is at your command. Just call for our representative. He will show you how profitable it is to build with mortar and men.
