How to Play BRIDGE Series 1928-29 by Wynne Ferguson Author of "PRACTICAL AUCTION BRIDGE"

ARTICLE No. 19

Contract Bridge has been making great progress lately and is now being played in many of the New York Card Clubs. The greatest objection to it as a Club game was the length of the rubber; but now that the game is better understood it is found that the average rubber of Contract is no longer than one of Auction. As a result, it is being played at the Card Clubs almost to the exclusion of Auction and a new Contract Code has now been prepared. The Whist Club of New York was the principal Club back of this movement, but its Committee was assisted by Committees from the Knickerbocker Whist Club, the Racquet and Tennis Club, the Cavendish Club and The American Whist League. Therefore the new Code is a more representative Code than any of the Auction Codes that have preceded it. The fact that these representative Clubs of New York City have recognized the game and have drawn up laws to govern its play is a pretty good indication that Contract is here to stay.

One of the most puzzling questions of bidding at Contract arises when a player holds a two-suited hand. The ordinary rules of bidding such hands at Auction cannot be applied to Contract because the bidding usually is too high to show the other suit on the second round. As a result you must figure out a new way to bid such hands so that you will be able to show both suits without taking unjustifiable chances. Here is a hand that illustrates the difficulty very well:

Y : Clubs—K, Q, 10, 8, 4
A : B : Diamonds—A, K, Q, 9
Z : Spades—K, 6, 5

No-score, rubber game. Z dealt and bid one heart, A passed and Y bid two hearts. What is B's proper bid? At Auction B should bid three clubs

Problem No. 23
Hearts—none
Clubs—10, 8, 3, 2
Diamonds—A, 10, 7
Spades—A, 10, 7

Spades are trumps and Z is in the lead. How can Y Z win seven of the eight tricks against any defense? Solution in the next article.
