Garden Club to Hold Field Day

Members Will Visit Berry Begonia Collection on Saturday

Field Day will be observed by the Torrance District Garden club Saturday when they will visit the choice collection of Rex begonias and other plants at the home of Mr. Roy Berry in Keystone.

Mr. Berry has a hobby of collecting rare begonia plants, and has a very fine collection of them. He also has beautiful water gardens, and hundreds of rare specimens of gold fish.

Members of the Garden Club are looking forward to this opportunity and a great number of them are planning to go. Anyone who is interested in the collection is welcome. As it is impossible to go collectively at one time, the exhibit will be open from 2 o'clock until dark.

Mr. Berry's home is located on Dolores street, Keystone. Dolores street is one block east of Main street and the house one and a half blocks south of Carson street. It is distinguished by an iron fence and may be easily found.

Memorial Service at Roosevelt Park

Memorial Day services will be held at Roosevelt Memorial Park on Decoration Day, Thursday, May 30, by the American Legion. This will be a joint service, under the supervision of a number of units. Further details will be announced in forthcoming issues.

More Trucks Have Goodyear Tires Than Ever Before

"More and more truck operators are learning of the Goodyear leadership in truck tire manufacturing and merchandising and, as a result, more trucks are now equipped with Goodyears than ever before," declared Charlie Sherwin who sells and services the Goodyear truck tire line at Mullin's Service Station at order and Redondo boulevard.

"An increasing number of truck owners—including the man who owns but one truck—to the large fleet operator, are coming to realize that the present Goodyear truck tire has reached its present point of leadership through scientific effort—and not by accident."

"Goodyear engineers years ago began studying ways to improve truck tires and from their research work were able to develop many improvements. The results of their constant study and testing are at hand today in tires so vastly improved that only those familiar with motor truck operation realize the progress that has been made in Goodyear truck tires."

"We will be glad to explain the science of truck tire selection and adaptation to truck operators," said Mr. Sherwin.
