Title Goes to P.E. in Hard Game

Railway Boys Win Pennant for Two Straight Years

By E. A. DAY

On Friday evening of last week, the Pacific Electric team, for the second year in succession, won the championship of the Torrance Twilight Baseball League...

By their victory the railway boys carry off the cup donated by W. J. Neff.

Yelovich started on the mound for Doheny Stone, but did not show the same form as on the Wednesday previous...

He served one a little too fat to

the ever reliable Dan Leonard, who nudged it just outside of reach of the third baseman...

Gribben on the mound for the winners, had one bad inning, the fourth, in which his opponents scored all their runs...

Zwiesler of the losers carried off the batting honors with two clean hits out of three attempts.

The Pacific Electric team was presented with a beautiful silver trophy, the gift of W. J. Neff Service Station.

Record Crowd See Torrance Lose to P. E.

Two Home Runs Fail to Off Set File's Pitching; Yelovich Put In

In spite of two mighty pretty home runs by Ducazau and Rozelle, the off-cool pitching of File lost the Torrance baseball team its home game with the fast stopping Pacific Electric outfit.

The game was played before a record attendance for Torrance games, and 400 fans saw their home team fight a losing battle of 7 to 6.

It just wasn't File's day, and when the railway boys had rolled up six runs to Torrance's one, Yelovich was substituted in the box.

It was Yelovich's first game with the hard ball league as a member of Torrance team, and he looked mighty good.

Local fans regretted to see File replaced in his home town, as he has done some scientific throwing in previous games.

Both Doheny Stone and Rozelle's home runs were the real old fashioned kind, soaring far out of reach.

Rozelle's came with two on the bases and helped materially in the score column.

Next Sunday's game will be played at the White Sox Park, 35th and Compton streets, Los Angeles, with the El Paso Shoe company team.

Have a Seat on the Council It's Free, Too

City Dads Donate Bleachers and Lights for Twilight Baseball

The City Council Tuesday evening appropriated the necessary funds to assure the success of twilight baseball this summer under greatly improved conditions on the Cabrillo avenue diamond.

Answering the joint requests of Carl L. Hyde, Ed Conner, Ed Tansey and a group of business men and ball players, the council authorized the appropriation of sufficient funds to build bleachers and provide lights for evening games.

It was brought out that the interest shown by the crowds who have been attending the games of the Industrial League this summer was evidence of the public's enthusiasm, and the council felt that in providing additional facilities, it was doing a public service to a large number of residents.

It is expected that the total costs of these improvements will not exceed \$400, and may possibly run considerably less than this figure.

Instructions were given the city street superintendent to proceed at once to improve the grounds and erect the bleachers and lights. It was hoped that the Southern California Edison Company would install the overhead lights without installation cost.

DROPPING their plane gently to earth in a perfect landing at 2:13 p. m. Friday, July 12th, at Culver City Airport near Los Angeles, Loren Mendell and "Pete" Reinhart, co-pilots of the Buhl Wright-motored, air sedan "Angelino", completed the greatest endurance flight in history, establishing a record of 246 hours, 45 minutes and 32 seconds in the air.

Physically exhausted themselves, but with their motor in perfect condition, the flyers were brought down after nearly a week and a half of continuous flight because of the accumulation of foreign substance on the stabilizer which made further flying hazardous. Both flyers paid high tribute to Richfield Gasoline and Richlube Motor Oil which they had selected after exhaustive tests and which made possible the perfect performance of their motor throughout the flight.

Carrying an over-load of almost seven hundred pounds in excess of the regular "pay load" of the Buhl air sedan, their total gasoline consumption was less than twelve gallons per hour of flying time, while their oil averaged less than one quart an hour—an almost phenomenal record best expressed in Reinhart's words, "The oil gauge might just as well have been painted. It didn't drop a pound of pressure during the entire flight."
