Marquette

**BUILT BY BUICK
BODY BY FISHER**

A GUARANTEE OF EXTRA VALUE

"Built by Buick"—only the Marquette in the moderate-price field can offer that priceless recommendation. This remarkable new six provides in every feature the unsifted goodness that has forever established Buick in the public mind as a master builder. Extra quality is everywhere—to provide extraordinary brilliance in performance, unflinching dependability in service, and unlimited satisfaction in ownership.

On its staunch and sturdy chassis the Marquette carries closed bodies by Fisher—the latest expression of the artistry and craftsmanship of the world's greatest body builder. Smart, low-slung lines—the last word in modern good taste. Interior and exterior finishes of pleasantly blending colors. Tailoring and appointments of exceptional quality and completeness. And such value

features as a remarkable new non-glare windshield, to be found on no other automobile, adjustable driver's seat, and beautiful new rubberized mohair upholstery, waterproof, dustproof and wearproof—shown for the first time on Marquette.

The great resources and unparalleled facilities of Buick and Fisher have combined to provide a greater measure of extra value than any car of comparable price offers.

At the first opportunity see and drive the Marquette. Check every feature, make every test.

The Marquette is easy to own. Talk to your dealer about it. You will be surprised at how economically you can buy a Marquette on the liberal G. M. A. C. terms.
