5 cans . \$1.00

Packed by "Jim" Dole

We reserve right to limit quantities

# SAFEGWAY STORES

DISTRIBUTION WITHOUT WASTE

## New Highway Markings

As an additional safety precautionary measure, the Oregon state highway department is marking railroad crossings on the main thoroughfares in the manner pictured above. This type of warning is said to be particularly effective on foggy nights when a motorist is concentrating his entire attention on the highway directly before him and may not observe the usual "X" post at the side of the road. The car is a Pontiac Big Six sedan.

## Hollywood-Palos Verdes Parkway to Be Explained to City Council by O'Melveny and Road Master

A full explanation of the proposed Hollywood-Palos Verdes Parkway project is promised Jan. 21, when George Jones, county road master, and Attorney H. W. O'Melveny will address the city council at its next regular meeting. Mayor Dennis explained at this week's meeting that Mr. O'Melveny was expected this week, but evidently has decided to postpone the trip until Jan. 21.

The Hollywood-Palos Verdes Parkway project is a 2 1/2 parkway boulevard planned to connect Hollywood and Palos Verdes through Torrance, Redondo, Hermosa and other communities. It comprises four roadways, one on each side for service to homes bordering upon it and two fast traffic roadways in the center for through traffic each way. The roads are to be separated by plantings and other landscape garden effects.

The project has been subject to considerable objection in Torrance, because property owners felt its cost would be greater than any benefit that would be derived. No definite information has been given the people of Torrance as to what the cost to property owners would be, and it is for this reason that the county road master and Mr. O'Melveny are coming to address the Council Jan. 21. They promise to give definite cost figures and offer explanations of all phases of the parkway project.

One of the principle objections in Torrance has been the great width of the roadway, which is 225 feet. City officials and others have contended that this is too much territory to sacrifice for road purposes, particularly in a district that as far as Torrance is concerned is well served with boulevards. Mr. O'Melveny assured Mayor John Dennis recently, however, that the parkway interests would be willing to narrow the portion south of Redondo boulevard in Torrance as far as Madonna avenue to 125 feet. The 225 foot parkway is acceptable to the Dr. del Amo, General Petroleum Corporation and the C. C. M. O. and Santa Fe Industrial Tract officials, through whose properties it passes, according to Mr. O'Melveny.

## Health Officer's Wife, One of Famous Gibson Girls, Passes

Funeral services for Mrs. Lillian Brennan Pomeroy, wife of Dr. John L. Pomeroy, Los Angeles county health officer were held last Saturday afternoon at three o'clock at the Episcopal church at Monrovia. Internment was at the Monrovia Mausoleum. The body lay in state Saturday morning in the chapel of Taylor and Benaker Funeral parlors, Monrovia.

Mrs. Pomeroy died early Wednesday morning at the Monrovia hospital after a week's illness. She had been stricken with a cerebral hemorrhage. Her husband and son, Stanley Pomeroy, were at the bedside when she died.

Mrs. Pomeroy was the daughter of the late Dr. and Mrs. George Marsden Brennan of New York City where she was born in 1888. She was married to Dr. Pomeroy, then a young medical officer in the U. S. Army, in 1907 and came with him to his post at Fort Wright in Spokane, Wash. Later they resided for a time in Louisville, Ky., and in 1910 came to Los Angeles where Dr. Pomeroy in 1914 was selected for the post of the first full time county health officer.

Known as one of the most beautiful girls of New York City, Mrs. Pomeroy was chosen by the artist, Dana Gibson, as one of the original Gibson Girls and posed for several of his famous sketches. A talented musician and a lover of athletics, Mrs. Pomeroy excelled as a swimmer and tennis player. Always a tireless worker in church and philanthropic activities, Mrs. Pomeroy of late years devoted much of her time to child welfare work. Many families for whom she cared will mourn her passing as their loss.

In the social world Mrs. Pomeroy was beloved by a host of friends and known for her rare charm of personality, culture and brilliant intellect. Prominent socially, her death comes as a shock to a wide circle of friends not only in this city but also in Spokane, Wash., Louisville, Ky., New York City, and Buffalo. Mrs. Pomeroy had but recently returned from an eight months' sojourn in South America, accompanied by her son, Stanley Pomeroy, and until her fatal illness resided in Los Angeles at the family residence, 250 South Mariposa avenue.

In addition to her husband and son, Mrs. Pomeroy leaves two sisters, Mrs. Ada Deane, Tanner of Monrovia and Mrs. Hugh Hallenbeck of New York City to mourn her loss.

Honorary pallbearers were: Dr. Ralph Burns, Dr. J. M. Downs, Dr. Charles L. Bennett, Dr. D. E. Smallhorst, Dr. William F. Reamer, Dr. Henry Smiley, Dr. Frank Este, Dr. J. C. Crandall, Dr. Eugene Fontaine, Dr. Frank Wilmet, Dr. R. V. Stone, Supervisor

## Evening High School

The Evening high school band instruction has been discontinued, and members of the class have re-organized into an orchestra. Practices are held on Wednesday evenings from 7 until 9 under the direction of Mr. Raymond Crawford. Anyone playing an instrument is invited to join this group.

An illustrated talk on "An English Gothic Cathedral," will be given at the regular meeting of the design and handicraft class at the high school next Monday evening at 7 p. m. The public is invited.

There is now room for a few more students in the welding class, held in the machine shop Monday and Wednesday evenings from 7 to 9 under the direction of Mr. Frank Hirsch. As only a limited group may take welding, this is an unusually fine opportunity to learn the trade.

Arts and crafts classes are being held at the Torrance Evening High school as follows:

Individual instruction in color theory, handicraft, etc., Monday and Wednesday evenings from 7 to 9 p. m.

Life drawing, Tuesday from 7 to 9 p. m.

Readwork, Thursday from 7 to 9 p. m.

Students are welcome to enter at any time. All instruction is individual.

There is opportunity for those interested in bookkeeping to enter now, as there is time to finish a couple of sets before the end of the term. Knowledge of bookkeeping is helpful in nearly all office positions, as well as to the housewife in keeping budgets, check writing, etc.

Comptometer, Monroe calculator and typewriting are other courses that may be taken, all of which have adding machine work in connection with them. Miss Jessie Weaver is the instructor of the courses.

## BANK OF ITALY IS IN BILLION DOLLAR CLASS

Ambition of A. P. Giannini Is Fulfilled Before 60th Birthday

With a gain in resources of more than \$200,000,000—the largest increase ever experienced in the history of the institution—the Bank of Italy has moved into the billion-dollar class, it was revealed with the publication of its statement of condition.

Total assets exceed \$1,055,000,000, giving in California the first billion dollar bank west of the Mississippi. There are in fact only three others in the United States with equal assets—the National City Bank and Guaranty Trust Company of New York, and the Continental Illinois Bank & Trust Company of Chicago.

In the current statement of the Bank of Italy, the greatest gain is that reflected in deposits. The figures now stand at \$838,822,000, as compared with \$628,000,000 at the end of last year, an increase of more than \$210,000,000. Cash on hand and in banks aggregate \$182,267,000 reflecting in excess of \$36,000,000 above the totals twelve months ago. At the same time the volume of letters of credits, acceptances and drafts has grown from \$23,000,000 to more than \$40,000,000, indicating the increase in international business.

Plans were made in 1927, when the institution had approximately \$500,000,000 in resources, to build the totals to a billion dollars by May 6, 1930, the sixtieth birthday of A. P. Giannini, founder of the bank. In reaching this objective, nearly half a year ahead of schedule a new record has been set in bank development.

## NEW \$5 LINE MEN'S SHOES AT SAM LEVY'S

"Friendly Five" Known Nationally as Superior Quality Shoes for Money

Sam Levy announces the exclusive agency for Torrance of the nationally known "Friendly Five" shoes for men.

The "Friendly Five" shoes are made by one of the largest manufacturers of good shoes in the country and are of exceptionally good quality and smart styles for the price. In fact, according to Mr. Levy, the standard price of five dollars a pair for any style does not permit of the usual profit, but he anticipates as has been the case elsewhere, that the increased volume of sales will more than make up for the narrow margin of profit on individual sales.

A large shipment of "Friendly Five" shoes for men arrived this week and an attractive assortment of both tan and black models are now on hand.

"We believe that in the Friendly Five shoes for men, we have a quality of shoes that will measure up to the best standards and they are so at a price that will more than meet the most severe competition," Mr. Levy said.

## EDUCATIONAL CENTER

Six new babies in a total of registered at the Mothers' Educational Center held at the Women's clubhouse on Friday, Jan. 3. The newcomers were Sunny June Morris, Robert R. Vance, J. R. Stroh, Jimmy Anderson, Jack McKinney, and Sara Louise Eby.

The next meeting of the Center will be held Feb. 7.
