**FIRST CHANNEL BASS**  
OCRAKORE, N. C. (UP)—The first channel bass to be landed from the surf by rod and reel were taken at Ocracoke by Peter Bentley, Red Bank, N. J., and Neale Ransom, Suffren, N. Y. These are the first channel bass to be taken in this manner along the entire Carolina coast, according to all available information gained from the anglers here. In the party with Ransom and Bentley were A. C. Kalbfleisch and Major Moore, both of New York City.

Prayer service, 11 a. m.  
Prayer meeting Wednesday, 7:30 p. m.

**CHRISTIAN SCIENCE**  
Paul's words to the Corinthians, "Henceforth know we no man after the flesh," constitute the Golden Text Sunday in the Lesson-Sermon on "Mortals and Immortals" in all Christian Science Churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.  
One of the Bible selections in the Lesson-Sermon includes these other words of Paul: "Now this I say, brethren, that flesh and blood cannot inherit the kingdom of God; neither doth corruption inherit incorruption. Behold, I shew you a mystery; We shall not all sleep, but we shall all be changed.... For this corruptible must put on incorruption, and this mortal must put on immortality."  
A correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, contains the following statement: "Mortals are not like immortals, created in God's own image; but infinite Spirit being all, mortal consciousness will at last yield to the scientific fact and disappear, and the real sense of being, perfect and forever intact, will appear."

**CHURCH OF THE NAZARENE**  
Old American Legion Hall, phone No. 44 W. Alice Ellis Smith, pastor.

**BUILDERS WE**

**The English Cottage Style In The American Manner**

**HOUSE H-126**  
The English Cottage style in its native land—except perhaps their modern houses which abandon most of what is vital to the old traditional style—does not at all apply to modern American ways of living—the plan arrangements are simply out of the question—no plumbing to speak of—no heat—no electric conveniences—not much ventilation—small cut-up rooms with very low ceilings, and other plan features that are not found in the small American home. But the spirit of the exterior of the old English cottage is charming—as a picture it has composition, depth, feeling, color and spirit—a work of art—comparable to a fine painting, a musical harmony, or a poem. With the practical side questions arise—can we here, in America afford to create a picture at the expense of comfortable living?—do we not rather feel that we must have modern conveniences?—in the small house do we not prefer livable light rooms in a rather plain house to small, cramped stuffy rooms within a more artistic exterior?  
In Europe they live differently and their architecture springs from tradition and from the very soil. In America much modification of the old English cottage style is required to fit modern conditions.  
The Essex is a modern American adoption of the English cottage style.  
It provides—Basement (under full house except motor room, Recreation room, laundry, heater and general space, cold room.  
First Floor—Entrance—vestibule with lavatory and coat closets, living room, dining room, kitchen and motor room for one car.  
Second Floor—Three bed rooms, a bath, ample closets and storage space.  
Third Floor—Storage space with movable stairway to 2nd floor.  
Ceiling—Highlights—Cellar, seven feet; first floor, eight feet; second floor, eight feet.
