Motoring Off The Beaten Track
A Round Trip Vacation

By HERB SUMMERS, Torrance

(Editor's Note: This is the second and concluding installment of a detailed description of a vacation journey off the well traveled routes to the Grand Canyon of Arizona, written especially for the Herald and News by Herb Summers, assistant city engineer of Torrance.

At the Grand Canyon of Arizona, there are features of the country to interest all, even the most casual of observers. At first sight of it, one is usually overwhelmed by the very distance across and the majestic grandeur of the vast panorama below.

However, one does not need to be a scientist to appreciate the geologic history which may be read in the canyon. As the earth grew older, its rocks were deposited all ways on top of the older ones.

Returning from the Inn, there is a camp called Jacob's Lake about 10 miles back.

It was a long, monotonous trip that day and we were very tired when we arrived at Cedar Ridge Trading Post. This is a good place to camp.

It was voted to extend an invitation to John R. Quinn, supervisor, to be a speaker at that meeting. Representatives from the two proposed bus companies who are vying with each other for a bus line to be run from the harbor district to Los Angeles or Hollywood will also be present to explain their respective routes.

Red Cross Ready To Assist Vets
File Claims For New Allowance

All honorably discharged veterans of the World War who believe themselves entitled to the "disability allowance" provided by the World War Veterans Act as amended July 3, 1930, may file their claims through the nearest Red Cross chapter.

Many hundreds of veterans will be eligible to the new benefits. The Act as amended provides a monthly allowance ranging from \$12 to \$40 according to the degree of disability, to honorably discharged veterans of the World War who served more than 90 days and who are suffering from a 25 percent or greater permanent disability not acquired in service and for which compensation has not been paid.

Old Indian Legends
There are three legends of tracks, the largest approximately 12 inches long and the smallest but 6 inches long. The stride of the big fellow was about 6 feet, and there are about 4 prints in a line.

Cameron is another trading post and is at the bridge where you cross the Little Colorado River, which flows northwest into the Grand Canyon.

From here you go for several miles along a tributary of the Little Colorado. That is, a mile or more from it. If there is time, it is a worth while side trip over there and back.
