CHRISTIAN SCIENCE "Truth" will be the subject of the Lesson-Sermon Sunday in all Churches of Christ, Scientists, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass. One of the Scripture citations includes Paul's exhortations to the Romans: "I beseech you therefore, brethren, by the mercies of God, that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service. And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God."

A correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, presents the following statements: "One aim, a point beyond faith, should be to find the footsteps of Truth, the way to health and holiness. We should strive to reach the Horeb height where God is revealed; and the cornerstone of all spiritual building is purity."

Forum Luncheon Is Discontinued Here The Forum Luncheon activity of the Chamber of Commerce has been discontinued until the early part of September. It was reported this week from the chamber headquarters. The summer vacation period was found to be too much competition for the semi-monthly meeting. In the fall a number of interesting programs will be given to start the Forum well on its way through the balance of the year.

SIXTEEN MILLION DOLLARS in interest paid to our SAVINGS Depositors

Year ending June 30, 1930

Convenient Installment LOANS ON REAL ESTATE This bank makes installment loans, repayable on monthly or other periodic basis

THINK of the comfort, happiness and security this money has brought to thousands of people. That Bank of Italy has helped to make Californians thrift-conscious is evidenced by the sixteen millions of dollars in interest paid to savings depositors during the year ending June 30, 1930. This monumental sum represents the definite reward of economy, prudence, self denial, foresight. For many years the Bank of Italy has expended large sums of money in advertising to encourage saving. That this effort has met with a heavy response is revealed by the fact that the savings deposits of the institution now total over half a billion dollars.
