County Leaders Reported To Be Backing Hopkins

Mercantile, realty, legal, professional and educational leaders of Los Angeles county have gone on record as wholeheartedly endorsing the candidacy of Ed. W. Hopkins, county assessor, who is seeking re-election at the primaries, Tuesday, August 26.

Louis W. Meyers, former justice of the California Supreme court and now practicing law here, says: "I have known Ed. W. Hopkins for some twenty years. I have entire confidence in his integrity, ability and fidelity as a public officer of this county. I think it is an outrage upon public decency for men with the same surname as Ed. W. Hopkins to be placed on the ballot for the purpose of confusing the voters."

Henry S. McKee, mercantile and financial leader, declares: "I think the administration of the office of county assessor by Ed. W. Hopkins over a long period of years is one of the finest examples of honest and intelligent public service in our political history."

William H. Daum, realtor and president of the California Real Estate Association states: "Ed. W. Hopkins has made the county assessor's office an institution of efficiency and honest endeavor. His experience and ability beget the confidence of us who in the course of our business have cause to familiarize ourselves with the assessor's arduous duties."

H. C. Hotelling, Pasadena merchant and banker who has known the assessor since he was a boy in Iowa, says: "I have known Ed. W. Hopkins all his life. We should keep him as county assessor as long as he will stay. He is honorable in all of his dealings. I am sorry to know of the tricky politics being used to confuse the voters."

E. O. Kendall, one of the oldest realtors in Los Angeles county, makes the comment: "The assessor's office is one we cannot afford to permit with. It would surely be unfortunate for property values in the county not to have a man like Ed. W. Hopkins on the job. Dr. Walter F. Dexter, president of Whittier College; Dr. Henry L. Harrower, Glendale philanthropist and world renowned scientist; Perry V. Weldon, William Rhodes Hervey, Dr. John Willis Beer and many others are among the scores sponsoring similar endorsements of Ed. W. Hopkins."

California is the "White Spot" of America!
Keep It White by Re-Electing
Governor C. C. YOUNG

California, in this period of economic stress, has less of unemployment, less of business depression, less of general distress, than any other state in the Union—UNDER GOVERNOR C. C. YOUNG'S MANAGEMENT.

California, at this critical period, vitally needs a steady hand at the helm. It needs more of the constructive economy that has given California's state government two major tax reductions, lowered operating costs and a \$30,000,000 surplus. When unemployment threatened, California's highway building program was speeded up until today more than \$3,500,000 is being spent monthly in building California roads with California labor and California materials.

Governor Young has done more governmentally for this section of the state than any Governor in our history. During his administration there has been spent or appropriated out of State Revenues for specific purposes, in addition to funds for regular current departmental expenditures, like Industrial Relations, Natural Resources, Agriculture, Public Health, and University of California, the tremendous sum of—

\$150,000,000 for the SOUTHLAND

All districts of the state have been fairly treated, as the need for state aid or service has appeared, and at the same time through efficient and economical management the State surplus increased to \$30,000,000

GOVERNOR YOUNG
Southern California's Friend

Governor Young has had 10 years' experience as assemblyman, 8 years experience as Lieutenant Governor, and nearly 4 years as Governor. Compare this broad, successful experience with the limited experience of his opponents. If you would apply the same business principles to the selection of a business manager of our state that you would to the selection of a manager of any enterprise in which you might be personally or financially interested, you will naturally and logically vote to LET GOVERNOR YOUNG CONTINUE TO KEEP CALIFORNIA THE MOST PROSPEROUS STATE IN THE UNION.
