

TO ROPE OFF STREETS

The police department will cooperate with the Chamber of Commerce and the merchants of the city Saturday night at the "Gay Nineties" party by roping off Sartori and Marcelina avenues in the vicinity of the flag pole park. The council ordered the streets blocked off for pedestrians and dancers on that night on the suggestion of Carl Hyde of the chamber.

FORD SEEKS WOODEN BRIDGE

By the United Press
KEENE, N. H. — Henry Ford soon may add to his collection of New England antiques at Dearborn, Mich., the old wooden-covered bridge across the Ashuelot river in West Swazey. One of his representatives is negotiating with the town in an effort to buy the landmark.

Plenty Reindeer To Haul Santa's Sleigh This Year

SACRAMENTO — Should Santa Claus find himself short of reindeer during the coming holiday season he can appeal to a Californian, who has charge of the largest herd of these animals in the world. More than 1,000,000 reindeer are now in Alaska, under the jurisdiction of William John Cooper, federal commissioner of education, and formerly state superintendent of instruction in California.

No one remembers why administration of reindeer was ever given to the commissioner of education, but that is one of his duties and Cooper has just completed a report on the situation. Outstanding in Cooper's statement is consideration of commercial value of reindeer from the viewpoint of the meat packing industry.

Introduced in 1891 Reindeer steak, for example, is not unknown to the United States but it is obtainable only in the larger cities. San Francisco led the way in serving this delicacy, for it has been on the menu of exclusive restaurants there for many years. Cooper's job now will be to create a market for the 300,000 reindeer it is estimated can be shipped out of Alaska each year. Establishment of special packing houses in Alaska, probably will be undertaken as a means of providing the supply for the states.

Back in 1891 the government introduced 10 reindeer from Asia into Alaska. Until that time they were unknown on the American side of Bering Strait. The total importation from Siberia amounted to 1230 by 1901, which has multiplied until the million now estimated as being in Alaska was reached. They have been distributed among the natives up and down the coast of Alaska to locations as far north as Point Barrow. The natives, mostly Eskimos, proved themselves capable of developing herds, with the result that they have brought food and fur clothing in plenty to these people.

godmother and Carmen Grasso as godfather, little Mike Cimino, son of Mr. and Mrs. Joe Cimino of Los Angeles, was christened at a Catholic church in Los Angeles Sunday.

Why We Use Candles At Christmas Time

Northern Germany holds the faith that Mary and the Christ child pass through the lanes and streets on Christmas Eve, and in Austria arises our adopted custom of placing candles in the windows Christmas Eve—that the Christ Child passing by in darkened ways might not stumble.

secular celebration of Christmas Eve, staging its "revillon" in cafes with its climax in midnight Christmas supper. In Russia "Kolenda" comes with its Christmas Eve procession through the streets, its carol-singing for coppers, the masquerading of revelers as animals, significant of the manger, and with its trees in the homes of noblemen.

BIGGER AND BETTER

THE NEW CHEVROLET SIX

Strikingly beautiful, fleet and smart — a masterpiece of Fisher styling

Never has the superiority of Body by Fisher been more strikingly exemplified than in the Bigger and Better Chevrolet Six!

With the added advantage of a lengthened wheelbase, Fisher designers have achieved in the new Chevrolet an impressive degree of smartness, comfort and luxury.

Inside and out, scores of refinements stamp this car as a masterpiece of modern coachwork. Radiator, headlamps and tie-bar form an unusually attractive and distinctive ensemble. Mouldings sweep back in an unbroken line to blend with the smart new body contours. And new color combinations lend a new individuality. Interiors, too, are

exceptional. The new mohair and broadcloth upholstery is smartly tailored. Seats are wider and more luxuriously cushioned. A deeper windshield and wider windows give better vision. And beautiful new modern fittings lend a final note of charm.

Many mechanical improvements are also evident in this Bigger and Better Six. Among these are a stronger frame; easier steering; a more durable clutch; a quieter, smoother transmission; and many important engine refinements.

The Bigger and Better Chevrolet Six is now on display. See it today—drive it! It is the Great American Value.
