LOMITA BRIEFS

Miss Antle Weds Warren Pangborn

LOMITA—At a quiet wedding in Corona Saturday evening two popular young people of Lomita, Miss Gladys Antle and Warren W. Pangborn exchanged their vows. The wedding took place at the home of Mr. and Mrs. Wesley Robbins, other witnesses being Mr. and Mrs. Leo H. Sidebotham, who attended the bride and groom, and Mr. and Mrs. W. S. Pangborn, parents of the groom. Following the ceremony the couple left for San Francisco where their honeymoon will be spent. On their return they will reside in Long Beach.

Both bride and groom are graduates of Narbonne High school where the bride for the past three years since her graduation has been clerk. The groom has for some time been in the employ of Edward Sidebotham & Son, Building Supplies. He is at present employed at the new Sidebotham Rock plant at Corona. The parents of the groom are among the earliest settlers of Lomita, having settled here over twenty years ago, and both bride and groom have hosts of friends among the young people of the community.

Mrs. Pearce Passes Away at Age of 48

LOMITA—After several years of suffering, Mrs. Minnie Chalsberg Pearce, wife of Oliver B. Pearce, passed away Saturday night at General Hospital. Funeral services were held Monday at Long Beach and interment took place at Inglewood.

Mrs. Pearce was born in Sweden 48 years ago and came to America when 18 years old. In 1913 Mr. and Mrs. Pearce came to Lomita, buying a home on 2nd street. Several years ago they moved to their home at 2615 Orange street. Besides her husband, Mrs. Pearce is survived by a 10-year-old daughter, Elma Elizabeth, and a stepdaughter, Mrs. H. W. Nansel.

The sensational flight of Russell Boardman and John Polando in their plane "Cape Cod," setting a new world's record distance of 5000 miles from New York to Istanbul, Turkey, and the round the world endeavor of Hugh Herndon and Clyde Pangborn, has focused the attention of the entire world on these new air heroes.

Each plane carried a load of approximately 350 gallons of gasoline, over three tons of gasoline and oil. This additional weight, points out Douglas Collins, local Firestone dealer, naturally put a tremendous strain on the tires in taking off and landing. The Firestone Airplane Balloons, with which both ships are equipped, were tested to withstand two and a half times normal plane loads on a Firestone testing machine of the type shown in lower right inset, the same type of tester used at the Firestone factory in the development of all Firestone tires.

This test, says Mr. Collins, combined with the Gum-Dipping process in all Firestone Tires, and other features developed by Firestone Engineers, prevented serious mishap when these heavily-laden birds were brought to earth and accorded the fivers a safety margin beyond all requirements.

MRS. KING LEAVES TODAY FOR GOLD STAR VOYAGE

LOMITA—A bon voyage party was given Mrs. Bertha Blaine King Monday afternoon, the guests assembling at her home on Cypress street. Mrs. King, mother of Clyde C. Blaine, who lost his life while serving on the U. S. S. San Diego during the world war, leaves Thursday for New York where she will join the Gold Star Mothers who are sailing for France on the S. S. President Roosevelt, as guests of the United States government. Mrs. Lillie Pollock served delicious refreshments and amusing and useful farewell gifts were received by the guest of honor.

The Royal Neighbors entertained at cards Tuesday evening at the home of Mrs. Helen Wells, 3030 Poppy street, Mrs. Wells and Mrs. Tizab Taber acting as hostesses. Ten tables of five hundred and pinocle were played.

Summer school at Orange Street school will close Friday, after having an average attendance of 160 pupils. Miss Hilda Jellison has been in charge, assisted by Miss Enid May, Miss Lura Bonderant, Miss Shaw and Mrs. Lawless.

Water Rate Lowered In Lomita District 13

LOMITA—The old family game of crossword puzzles has been abandoned by Lomita citizens residing in Water District No. 13. It's much more exciting trying to figure your water bill with the company lowering the rate every few weeks. Now the rate is 35c a thousand when we had just been putting ourselves on the back because it was 40c. Irrigation of so much land planted to garden produce is said to account for lower operating costs.

GRAPES ON VINE ARE NOT PUBLIC PROPERTY

LOMITA—That grapes growing in vineyards don't belong to anyone in particular is a wrong impression that seems to have been held by Mexicans living in the Pueblo. Wherefore John Delhoga, manager of the Poggi Ranch, had Louis Ardaiz in court Wednesday morning charged with stealing a box of grapes from the ranch. Through his interpreter, Lucy Ardaiz, Ardaiz admitted taking the grapes, but said he thought they didn't belong to anyone. As he had a family and would lose his job if sentenced to jail, he was given a suspended sentence of six months.

ELECT OFFICERS

LOMITA—The Lomita District Chapter of the Poultrymen's State Wide Protective Association, Ltd. met at V. F. W. hall Tuesday evening to elect officers. J. E. Williams of Torrance was unanimously elected to serve as chairman and Mrs. Jacob Roth of Gardena as secretary. The officers to serve until October 15. At a later meeting directors will be elected and committees named.

PRESERVING TIME BRINGS THOUGHTS OF NEEDY ONES

LOMITA—Members of the Auxiliary Veterans of Foreign Wars, are engaged in preparations these days for their winter relief work. A number of shelves of fruit and jelly having been put up by the ladies. Some of the fruit has been donated for this excellent cause. It isn't much fun standing by a hot stove these days but needy families this winter will appreciate it. Housewives who are putting up fruit might well put up an extra glass and donate it to the Auxiliary.

LOMITA—Miss Frances Woods, Miss Mary Jo Eads, and Edward Morter have left for Berkeley. Mr. Morter is entering his senior year. Miss Woods attended U. C. L. A. last year, and Miss Eads is a freshman.

State Picnics

WISCONSIN

All who ever lived in Wisconsin are invited to meet for the great picnic reunion, all day, Saturday, August 22, in Sycamore Grove Park. There will be county contests and headquarters so all can find the old neighbors even with ten thousand present.

HE-MAN LOGGER

KELSO, Wash.—Logger Dick Lund may go down in history as another Paul Bunyan. Lund fell and a large splinter of wood entered his abdomen. Fellow workmen, instead of attempting to extract it, cut off the part that protruded. In a hospital, doctors removed the rest of the splinter and said Lund would be back on the job in a few days.

BUILDERS OF CALIFORNIA

"This is my Estate"

Thousands of people—many with modest incomes—have founded substantial estates upon LIFE INSURANCE. Policies now in force in California exceed five billion dollars.

Seasoned in financial judgment, a life insurance company chooses its bank with as much care as its investments. One of the world's largest companies transacts business through 60 different Bank of America branches.

And more than 25 other life insurance concerns likewise accumulate and distribute their funds through this Bank's statewide system.

Thus millions that would otherwise remain in transit are made available for increased investments in sound first mortgages and bonds.

These investments of life insurance funds—so helpful to the development of California—benefit property owners, business concerns and wage-earners throughout the state.

Bank of America does not sell life insurance, but considers it one of the most important investments. It is a major asset of many estates administered by our Trust Department. Have you investigated the advantages of a Life Insurance Trust? Ask any Bank of America officer in your community.

Watch That Danger Line!

SEPTEMBER soon. Children going back to school. More demands on their little bodies and brains. They will need plenty of good, fresh food... more than during vacation time.

Watch that DANGER LINE! Be sure everything you serve them is fresh. Don't risk those little digestive disturbances that can become so serious.

Modern Refrigeration will keep temperatures below 50 degrees—that's the Danger Line at which

many foods spoil very rapidly.

Modern Refrigeration will save money as well as health. No spoiled foods to be thrown away; no leftovers that you cannot use because they have become unappetizing.

Now that the children are in school, take a morning to go to your dealer's and see the new refrigerators. Play safe.

88% of State Population Is Said "White"

By the United Press
California is still a "white man's state." Despite the rapid encroachment of Mexicans and Filipinos, who have at times caused so-called "race riots," 88.3 per cent of the total population of 5,977,251 was classed as white in the latest tabulation of the United States census bureau.

The total number of persons of foreign white stock in California was 2,110,112 comprising 810,034 foreign-born white persons and 1,300,078 native acting as guests of foreign or mixed parentage. The population of Los Angeles county showed a total of 1,567,227 native white persons, as compared with 727,928 in 1920, and 232,655 foreign-born white persons as compared with 146,579 in 1920.
