Furnace Heat for Homes without Basement
Turned on---Adjusted---Shut off with the turn of a key

Just turn a key and clean warm air floods into every corner. There is no waiting, not even for the lighting of a match...

Installation in any home... with or without a basement... is simple. Operation is pleasantly economical.

For the next seven months, mornings are likely to be crisp and evenings cool. A Natural Gas Floor Furnace will give you quick heat for a chilly hour, or steady warmth, under perfect control, the day through.

Look for the Blue Star of the American Gas Association Testing Laboratory when you buy heating appliances from your dealer or gas company.

BUILDERS OF CALIFORNIA

ALL of the 10 LARGEST CORPORATIONS in California are depositors in Bank of America

DOWN THROUGH the ages, the essentials of human life have not changed. In supplying these basic human needs, the world has developed its greatest and strongest industries.

California's ten largest corporations are leaders in such essential industries. They have huge assets, employ thousands of people. Through able management, they have accumulated ample reserves for times of stress.

Who could be better qualified than the heads of these great business organizations, to judge the soundness and service of a bank? Every one of these ten largest corporations is a depositor in Bank of America.

At any Bank of America branch, your funds will have the same safeguards recognized by the men who manage California's largest companies. Your account—large or small, savings or commercial—will join here with those of the greatest business organizations in this state.
