CHRISTIAN SCIENCE CHURCHES
"The question 'Are Sin, Disease, and Death Real?' is the subject of the Lesson-Sermon on Sunday, October 9, in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston.
Among the Bible citations are these verses from Matthew, relating to Christ Jesus: "And behold, they brought to him a man sick of the palsy, lying on a bed; and Jesus seeing their faith said unto the sick of the palsy: Son, be of good cheer; thy sins be forgiven thee. . . . And Jesus knowing their thoughts said, Whence think ye evil in your hearts? For whether is easier, to say, Thy sins be forgiven thee; or to say, Arise, and walk? But that ye may know that the Son of man hath power on earth to forgive sins, (then saith he to the sick of the palsy,) Arise, take up thy bed, and go unto thine house. And he arose, and departed to his house.
A correlative passage from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, states: "Jesus beheld in Science the perfect man, who appeared to him where sinning mortal man appears to mortals. In this perfect man the Saviour saw God's own likeness, and this correct view of man healed the sick."

KNOWN WHERE THRIFTY BUYERS GATHER

This bride's shopping secret wasn't a secret at all... as she explains to her visiting neighbor.

Two Brides Get Together

TWO BRIDES. Both inexperienced in making a penny count in their shopping. But one early found that to make both ends meet, she had to learn quickly. The help she needed was close at hand... at her neighborhood Associated Grocers.

"It isn't a secret. We learned that two can't live as cheaply as one so I shopped around, compared shelf prices and labels and found a grocer who would help me get the most for my money. And he is so helpful—he would suggest a whole meal menu if I were stumped!"

A friend sought her out after successive salary cuts had tightened the family pocketbook. How did she manage so well on so little?

"John thinks I shop as expertly as his mother... when the truth of it is I let my grocer and his storeful of foods, all at low prices, do all the suggesting I need. Why don't you look for an A-G sign in your neighborhood?"

EASY! new Natural Gas Ranges COOK AUTOMATICALLY

Good cooking is so easy with the new automatic gas ranges, and the extra hours of freedom are so welcome to the busy home manager. The clock turns on the gas, and turns it off, at the appointed hours. Oven temperature is automatically controlled by the oven heat regulator. Cooking goes on precisely as you wish it, even though you are miles away, and results are much better than when guess-work governs.

Ovens are insulated to hold heat in, so that less fuel is required and the kitchen stays cooler. Burners have been made more convenient and efficient. Natural gas is, of course, the most economical of modern fuels. Cooking costs as little as a fifth of a cent a person a meal.

See the new natural gas ranges in the display of your dealer or gas company, and look for the Blue Star Seal of the American Gas Association Testing Laboratory on the range you select.
