"In the beginning was the Word, and the Word was with God, and the Word was God. All things were made by him; and without him was not any thing made that was made." These words of John are the Golden Text in the Lesson-Sermon on Sunday in all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass. The subject of the Lesson-Sermon is the question: "Is the Universe, including Man, Evolved by Atomic Force?"

The Lesson-Sermon includes the verses from the Psalms: "God hath spoken once; twice have I heard this; that power belongeth unto God." "Be thou exalted, Lord, in thine own strength: so will we sing and praise thy power."

A correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, states: "God is infinite, therefore ever present, and there is no other power nor presence. Hence the spirituality of the universe is the only fact of creation."

HEALTH'S FOUNDATION IS LAID IN CHILDHOOD

Nearly all children need more vitamins than ordinary foods provide. Without sufficient vitamins A and D in particular, you can't expect them to grow into the strong, virile adults you like to picture them.

Soon after an infant is first cuddled into its mother's arms is the time to begin helping its bones to become strong, its teeth sound and its resistance to childhood ills well established.

Scott's Emulsion of Cod Liver Oil is not only rich in these precious vitamins A and D, but being an emulsion it is easily digested. It can't harm tiny stomachs. It is pure, easy to take (no disagreeable taste or odor)—and in its sixty years has proved its efficacy to millions of users. Get a bottle today. All druggists—60c and \$1.20.
