Paris Styles

By MARY KNIGHT

United Press Staff Correspondent PARIS (U.P.)—When it comes to color combinations, few people, man or woman, can think up more exotic than Captain Molyneux. His inspirations come largely from flowers—and since flowers take unto themselves practically everything that the rainbow has, he goes to a pretty good source, he isn't so much the colors themselves but the way he combines them and the odd tones he seems able to coax from the posies.

This season he has several shades of fabrics, especially the de-grade fabrics, that are so lovely they would serve as an antidote for any kind of pain. For example, there is a deep bottle green shading to chartruse at the feet, and another in deep midnight blue toning off to a madonna hue at the toes. These, incidentally are of velvet that is woven on the bias.

Going off his beaten path of strict conservatism, Molyneux has decided this winter to let his alter ego have a small hand in his designs. This, he is said for the A. I. is not to any detriment to his fame. His skirts are straight and narrow and slinky and slash-ed; not only once but sometimes twice, and clear to the knee. He shortens his sport and morning clothes just a bit, and lowers his

collars and lapels, and even above the knees. Trains for evening, but well trained so as not to get in the way or look floppy.

A. in any way with any political interest."

There are 267 associations in the Tenth District and a membership of 61,671 within the public school district of Los Angeles, according to Nell Scott Lucas, a state officer. The Tenth District is the largest district in the United States.

Mrs. James K. Lytle, past president of the Tenth District, spoke regarding publicity. Leslie Davis, publicity chairman for the district; Dr. Sven Lokrantz, with whose work for health in the public schools the P. T.
