## First Church of Christ Scientist Annual Report

Headquarters of The Christian Science Publishing Society

BOSTON, Mass., June 3.—A call to renewed activity in the daily application of Christian Science was issued today at the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, by The Christian Science Board of Directors.

Church officers in their reports divulged marked growth of the movement throughout the world, and increased demand for the writings of Mary Baker Eddy, Discoverer and Founder of Christian Science.

George Wendell Adams, speaking as chairman of the Board of Directors, stressed the need for interest not only in problems of individuals, but also in the general welfare of the world. Truth and Love hold guard over the whole world as well as over the minutest occupant of it," the Directors said.

"In these days of unrest, with rumors of vital disagreements among nations, we should turn our attention to the foundation of our nation, but that Love, God, will be acknowledged as supreme in the affairs of men. In reality, men and nations do not envy and hate each other; because they have one heavenly Father, they respect and love each other."

Referring to the new Christian Science Publishing House, which increased demand for Christian Science literature made necessary, Mr. Adams asserted that while wholesome activity in the movement continues, "the putting up of buildings, however beautiful and necessary they may be, does not in itself lay the foundation for spiritual enlightenment which is essential to meet the demands of humanity. To be enduring, growth must be the result of earnest, active spiritual effort."

The election of A. Barry Bacon as the new President of The Mother Church was announced. Mr. Bacon succeeds Dr. John M. Breyer, Associate Professor at the Harvard Graduate School of Education.

New Readers elected to serve in The Mother Church for the next three years are Ralph B. Scholfield and Miss Florence Siever Midaugh.

Edward L. Ripley and Ezra W. Palmer, both of Brookline, Mass., were re-elected Treasurer and Clerk of the Church, respectively. Mr. Scholfield, who will conduct church services, was born at Houdon, Yorkshire, England. He was educated at Eton College, where he first experienced the healing influence of Christian Science. Entering business in London, he worked with a firm of marine insurance underwriters at Lloyd's. During the World War he served as captain of infantry with a British regiment.

In 1907 he joined First Church of Christ, Scientist, in London and has served that church as First

ness men and women, church workers and home workers frequently report that they have returned to their work with renewed assurance, hope and courage, qualities that have been reflected in improvements in their homes and business surroundings.

Member of the Board of Lectureship carried Christian Science messages to the four corners of the globe, it was disclosed at the meeting. They lectured in the British Isles, Continental Europe and Scandinavia, Australia, Hawaii and the Orient, Africa, Bermuda and the West Indies, Mexico and the Canal Zone, the United States, Canada and Alaska.

Roland R. Harrison, Manager of The Christian Science Publishing Society, reported a distinct improvement in the quality of articles submitted for publication in the religious periodicals attributable, he said, to greater spiritual progress in the field.

Commenting on an encouragingly higher circulation trend for all periodicals, particular attention was paid to The Christian Science Monitor. "The average daily net paid circulation of the Monitor for the six months ended March 28, 1935, was 136,608—the highest sustained average over any six months' period in the history of the paper," he said. "Readers of the Monitor have been able to depend upon its discerning and impartial presentation of vital news in the United States, Europe and the Far East—recorded faithfully and fully in the perspective of its social importance."

An outstanding development in the dissemination of news by this international daily paper is the presentation of "The Monitor Views the News," reported on by C. Augustus Norwood, Manager of Committees on Publication. Nearly 300 stations in North America were asserted to be outlets for this service furnished by co-operation of the Monitor, Committees on Publication and radio stations.

Originally the main duty of the Committees on Publication, as set forth in the Church Manual, was the correction of impositions on the public in regard to Christian Science.

Mr. Norwood added that "Christian Science is now so well known that published misstatements calling for corrections are comparatively few." And "reports of our Lesson-Sermons in the Christian Science Quarterly are each week reaching millions of people through newspapers, including four metropolitan dailies of New York City."

The addition of 73 new branches of The Mother Church, 47 in North America, one in South America, 17 in Europe, two in Asia, two in Africa and four in Australasia, were listed by Miss Rosamond Wright, Manager of the Department of Branches and Practitioners.

Ezra Palmer, Clerk of the Church, noted in particular numerous letters received from young people showing their comprehension of Christian Science and their ability to demonstrate it. In welcoming these into Church membership he recalled the words of Mrs. Eddy in "Miscellaneous Writings": "Beloved children, the world has need of you and more as children than as men and women; it needs your innocence, unselfishness, faithful affection, uncontaminated lives."

An increase of 29.5 per cent in the sales of Mrs. Eddy's works over the previous year was recorded by William M. Bartlett, Secretary of the Trustees under the Will of Mary Baker Eddy. "The world's need for the healing truths of Christian Science has grown more and more pressing during the two decades just passed," Mr. Bartlett pointed out. "The list of publications which in 1915 consisted of 39 items was expanded to more than 200; while new books and translations authorized and now under way, to be published within the next 13 months, will add 30 new items to the list."

Approximately 6,000 persons, representing but a fraction of the total membership of The Mother Church, crowded the great auditorium to the third gallery, overflowing into the original edifice adjoining.

### SLEUTHS and their ways INTEREST

"Behind the Green Lights," Mascot's thrilling detective picture coming to the Torrance Tuesday and Wednesday with Judith Allen, Norman Foster and Sidney Blackmer featured, is heralded as the forerunner of a cycle of such films. Public interest in the men who bested Dillinger, Hauptmann

and other criminals is given as the reason for Hollywood's sudden interest in sleuths. "Behind the Green Lights" is not a gangster picture but tells of a detective in love with a beautiful woman lawyer and is said to give the most startling expose ever made of shady attorneys' tricks and police methods of beating them. The stellar cast of this dynamic story includes Norman Foster, Sidney Blackmer, Judith Allen, Purnell Pratt, Theodore Von Eltz, Kenneth Thomson, Edward Gargan and many more.

### Honest Man Finds Purse With Cash

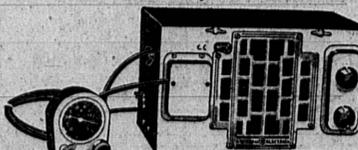

G. A. Kelly, 1606 Cedar avenue, has learned that there are honest men in the world, even in these distressing times. Kelly lost a purse containing \$27. N. A. Johnson, 119 East Fourth street, Long Beach, found it. He took it to the Long Beach police station, where the purse was found to contain the name and address of the owner. Police phoned Kelly, who instructed them to give Johnson \$27 out of the contents and keep the rest until he could claim it. Once in a blue moon it happens.

### FAMOUS HISTORICAL EVENTS

Congress introduced import duties, June 6, 1873. A constitutional convention was held in Denver, Colorado, 1899.
