

**Evening High SCHOOL**

The enrollment in the evening school is increasing very satisfactorily. Fifty-five enrolled last Thursday evening and 65 on Monday evening, bringing the total to 120 which is very good for the first week. Several of the classes are pretty well filled. In the typing class almost every machine had an operator working at it the whole two hours on Monday night.

So many are asking for a computer that it will be necessary to schedule the time very carefully so that everyone will get their turn at the machines. The shorthand classes are divided into two sections, from 7 to 8 beginning shorthand is being taught, and from 8 to 9 the more advanced students are given dictation and other training. A nice group has enrolled for each class. If you are interested in one of these classes it will be wise for you to start as early as possible.

The classes in sewing, wood and machine shop, beauty culture have a very good start with the students enthusiastic over their work. Principal Guy Mowry would like to see more of the people of Torrance and Lomita taking advantage of these opportunities. Four new classes were started on Monday night. A class in dramatics will meet from 8 to 9:30 on Monday and Wednesday nights, one in public speaking from 6:30 to 8 on the same evenings. English and mathematics are two more classes to meet from 6:30 to 9:30 on Monday and Wednesday evenings.

Three more classes are planned to start about the first of October. Announcement of them will be made at a later date.

**CAN YOU IMAGINE!**

Can you imagine the new lease on life taken by this man from Long Island, New York who suffered for 25 years with stomach trouble. He started taking BISMA-REX and now after only two months finds his stomach behaving normally.

**EXPLANATION**  
Thousands of sufferers like the one described above say there's nothing you can take that brings faster, more complete relief from acid indigestion than Bisma-Rex. This pleasant-tasting antacid powder starts to work almost instantly. In three minutes you notice a wonderful improvement. Acids neutralized; gas removed. Many forms of indigestion relief stop there; but Bisma-Rex keeps right on working. Holds acidity and gas in check for a prolonged period. Helps repair the harm done by excess acid in the stomach. Enjoy for yourself the fast, prolonged relief that has made Bisma-Rex famous. Only 50c a box.

**CHURCHES OF CHRIST, SCIENTIST**

Jesus' statement to Nicodemus, "That which is born of the flesh is flesh; and that which is born of the Spirit is spirit," is the Golden Text in the Lesson-Sermon on "Matter" on Sunday in all Christian Science Churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. The Lesson-Sermon cites these Bible verses from the Master's Sermon on the Mount: "Blessed are they which do hunger and thirst after righteousness: for they shall be filled. . . . For I say unto you, That except your righteousness shall exceed the righteousness of the scribes and Pharisees, ye shall in no case enter into the kingdom of heaven. . . . Be ye therefore perfect, even as your Father which is in heaven is perfect."  
Among the correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, are the words: "The mortal mind through which Truth appears most vividly is that one which has lost much materiality—much error—in order to become a better transparency for Truth. Then, like a cloud melting into thin vapor, it no longer hides the sun."

**Style Writer Praises New Interiors**

Pictured here admiring the rich new interior of to-day's Ford V-8 is Gwenn Walters, well-known style writer and fashion editor of Columbia Studies. Among the many refinements now found in all closed deluxe models are: new, walnut finish on the instrument panel and window mouldings, rustless steel spoke steering wheel, non-glare rear-view mirror with 30-hour clock, locking glove compartment and tandem windshield wipers. In regular Ford V-8 models numerous improvements have also been made in interior styling to add to the smartness of this popular make of car.

hours and 629, or 12 percent, related to improving safety conditions in the mills.  
Other matters brought up by the employees dealt with various phases of working conditions. About 7 1/2 percent of the questions concerned those physical conditions within the plants which affect production and the comfort of employees on the job, while other questions related to sanitation, employees' transportation, housing, and living conditions, pensions, etc.  
So that their constituents would receive as prompt action as possible upon the matters presented, the representatives elected by the employees of the various plants of the industry held 3422 meetings from January through June of this year, an average of 22 meetings per working day for the whole industry.
